Easter COOKBOOK 2010

FAVOURITE HOMESTYLE RECIPES

Easter treats

Pioneer on the Jamaican and Caribbean media landscape, **The Gleaner** continues to provide a range of products and services geared at satisfying readers' tastes. The first to do so, over the years, we have produced two recipe books every year.

This year, **Lifestyle** has packaged some extra special in our Easter edition. We hope you enjoy the new features, especially the glossary of some commonly used cooking terms, recipes from friends overseas as well as our local celebrities.

Send us your feedback and start sending in those recipes for our Christmas cookbook. If selected, you could win a gift. Think about cakes,

puddings, drinks, main meat dishes and special Christmas treats. Make sure that all your recipes feature locally grown vegetables, ground provisions and fruits.

As you observe the traditions of Easter, remember the true meaning of the season. It is not just about bun and cheese or fish and bammy. It is, instead, the time of year when Christian believers pause to reflect on the sacrifice of their Saviour on the cross for their sins.

A happy, safe and holy Easter to all our print and Internet readers.

Myths about the season

Jamaicans have a way of putting their mark on things and myths about Easter are not exempt.

Have you ever heard about breaking the egg? Well, you crack an egg in a glass or bowl on Good Friday and leave it. When you come back later that day, whatever shape/image the egg has formed is an omen of things to come in your life. For instance, if you see a ship or plane, you'll be travelling. If you see a ring, you'll get married. And if you see a coffin, well, you know.

Another popular Good Friday myth is catching the water if it rains on that day. You put a container into the middle of the yard (away from trees, branches, rooftops, etc.) so that the water falls directly from the heavens. You then take the water and store it.

Any time medical situations come up, take the 'Good Friday water' and get to work.

Here are some you might not have heard:

- Having new clothes for Easter brings good luck.
- Adults who do any form of work on Good Friday will have to do it over and over again, and any sewing done on this day will never be undone.
- Washing clothes on Good Friday will bring a curse of never being clean.
- Wishes through prayers done at the precise time of 3 p.m. (the hour it is believed Christ died) will surely be granted.

Blackened Scallops over Angel-Hair Pasta

Bouillabaisse

*Jamaicans like their fish tea. This recipe from **The New York Times Cookbook**, which my family enjoys, can be considered a different kind of fish tea. After you have cooked this a couple of times, you will find yourself adding and substituting ingredients. I like to add more leeks and wine. I sometimes substitute other kinds of fish. Choose a firm fish that will not easily fall apart.*

- 1 stalk celery, chopped
- 1 clove garlic, finely chopped
- 1 leek, diced

- 1/2 tsp thyme
- 1/2 bay leaf

- 1/4 cup fennel, chopped or 1/2 tsp chopped fennel seeds
- Pinch of saffron (optional)
- Salt and pepper to taste
- 2 tbs chopped parsley
- 1 small lobster cut into pieces
- 12 mussels, well scrubbed and de-bearded
- 12 raw shrimp, shelled and de-veined
- 12 scallops, 1 lb red snapper or cod, cut into serving pieces.

Black-eyed peas and parsley salad

Yoga expert Sharon McConnell-Feanny's favourite Easter recipe is black-eyed peas and parsley salad.

Her diet is primarily vegetarian and she loves beans. This salad is not only packed with high protein, it is low in fat and contains parsley, which is great for digestion, hormone balancing and acts as a diuretic. It is also a source of very high natural calcium.

INGREDIENTS AND METHOD

1. Soak one cup of black-eyed peas overnight.
2. Boil the peas with thyme, rosemary, olive oil and natural salt and pepper till tender.
3. Finely chop up three to four cups of parsley.
4. Finely chop up three plummy tomatoes.
5. Mix all ingredients together and serve; add a little extra olive oil, if necessary.
