"Mrs. Louise Woodruff * Ursa, Illinois - Grand Champion 1976 Illinois State Fair"

1986 Winner Praline Cookies

1/2 cup butter
1 1/2 cup brown sugar,Packed
1 egg
1 1/2 c
1 t vanilla
1 cup pecans,Chopped

Preparation time: 25 minutes Baking time: 10 to 12 minutes

1. Heat oven to 350 degrees. Cream butter, sugar and egg. Stir in flour, vanilla and pecans. Mix well by hand. Shape into balls about the size of walnuts, place on cookie sheets and flatten to about 1/8 inch.

2. Bake 10 to 12 minutes, or until brown. Remove from oven and allow to cool completely and harden. Winner Jean McGree of Flossmoor "bores everyone," she says, with this family tale of Christmas praline cookies: "Since the time Mom had been a little girl, each November Grandma would surround her back yard pecan tree with sheets to catch the falling nuts. But most of the nuts had to be knocked from the branches with her long-handled broom. Then she would spend hours stooped over those sheets, picking up the pecans and sorting the good ones from the black and hollow shells.

"When her daughter married and moved away, the nuts were carefully picked over, packaged and shipped 'up North.' Free time in the first week of December was always marked for shelling the pecans. Sore hands and stiff backs were repaid with secret nibbling and promises of praline cookies for Christmas.

"Soon, I'll start looking for a package from Great-Grandma in South Carolina. Then, as we crack the pecans, I can retell the 'pecan story' to Michael and Ann, who know that Santa always looks for pralines on Christmas Eve."

2 oz Semi-sweet chocolate, melted

Preparation time: 30 minutes Chilling time: 1 hour

1. Melt butter in saucepan. Remove from heat. Add sugar, coconut and milk. Mix well. Shape rounded teaspoon of mixture into balls. Make a dent in the center. Place on a cookie sheet lined with wax paper.

2. Fill center with melted chocolate. Chill until firm. Store in refrigerator. These freeze wonderfully and look beautiful on a tray.

Winner Shere Case of Hickory Hills describes her cookie entry: "Holiday preparation usually starts in September and continues until the night before Christmas. I have been doing this for almost 18 years, and each year I add more recipes. This particular cookie, passed on to me by my sister-in-law, Diana Forkash of Wisconsin, ranks among the favorites of the family and friends. It looks absolutely gorgeous on a plate, tastes wonderful and is absolutely the easiest thing to make. There is no baking time involved, and you can sit down on the job and enjoy doing them."

Winner Jeanette McCarthy, Downers Grove, Illinois, describes her impatient person's "I'm hungry" cookies: "When I was a child, part of our Christmas celebration involved visits to my father's relatives during the time between Christmas and Epiphany. Great-Aunt Elizabeth came from a family whose women had been cooks for a wealthy family in Hungary. As a result, her cooking was usually slightly different and somewhat elegant.

"A treasured memory of Christmas at Great-Aunt Elizabeth's house was a cookie that I never learned to eat in moderation. Although my mother warned me not to say anything, one of the first things I would say upon arrival was, 'I'm hungry,' hoping that these cookies would appear. Much to my delight they usually did, and in fact, began also to appear at Easter, the Fourth of July, Thanksgiving and any other time we got together to celebrate." from the Chicago Tribune annual Food Guide Holiday Cookie Contest December 4, 1986

Yield: 72 Servings

- 2 1/2 c Flour
- 1 c Sugar
- 1 c Butter (or margarine)

- 1 1/2 t Baking powder
- 1/4 T Salt
- 1/2 T Almond extract
- 1 Egg
- 1/4 c Green sugar crystals, about

-candy)
- Decorations, optional

Preparation time: 20 minutes Chilling time: 4 hours Baking time: 10 minutes

1. Put flour, sugar, butter, baking powder, salt, almond extract and egg into large bowl of an electric mixer. Mix together, using low speed. Dough will be crumbly. Then knead dough with hands until mixture holds together.
2. Remove 1/3 cup of the dough; wrap and refrigerate. Divide remaining dough in thirds. Using hands, roll each into a 6-inch log.
3. Put sugar crystals on a sheet of wax paper. Roll each log in the sugar crystals to coat well; use the wax paper as a guide to press in crystals. Shape each log into a triangle, pressing gently on wax paper to give three sharp corners. Make sure to make 2 sides longer than the third side. Wrap each log well and refrigerate at least 4 hours or until dough is firm enough to slice. To this point, cookies can be made up to a week in advance.
4. Heat oven to 350 degrees. To bake, slice logs crosswise into 1/4-inch slices. Put slices about 1 inch apart on ungreased cookie sheets. For each cookie, shape about 1/2 teaspoon of the reserved 1/3 cup dough into a tree trunk. Attach to bottom underside of each tree. Sprinkle each cookie lightly with candy decorations, if desired. Bake until lightly browned, about 10 minutes. Carefully remove to wire racks. Cool completely.

Note: The logs can be divided and shaped into 3 sizes and sliced to form a 3-tiered tree. These second-place winning cookies are easily shaped into trees that are edged with glittery green sugar.

Dough will be very soft and can be difficult to work with so work quickly and use plenty of flour. Using cookie cutters dipped in flour, cut into desired shapes. Put cookies 1 inch apart on an ungreased cookie sheet. Use currants or candy for eyes or buttons, if desired.

5. Bake until lightly puffed, 7 to 10 minutes. First batch may be puffier because they will have less flour rolled in them. While still warm, paint with egg yolk wash if desired. Cool on wire racks. Cool completely, then decorate as desired with icing.

Icing: Mix confectioners' sugar with a small amount of water until thick and spreading consistency. Add food coloring if desired and put in a small plastic bag. Cut a small hole in one corner and drizzle icing out onto the cooled cookies.

1993 1st Place: Ginger Cookies

Yield: 80 Servings

1 C Granulated sugar
1/2 C Dark corn syrup
1/2 C Water
1 T ginger, Ground
2 t Cinnamon
2 t cloves, Ground
1 C butter (or margarine)
-Unsalted
4 C All-purpose flour
1 1/2 t Baking soda
Liquid food coloring
If desired

Preparation time: 1 1/2 hours Chilling time: 12 hours or more
Cooking time: 7 minutes

1. Put sugar, syrup, water, ginger, cinnamon and cloves into a large saucepan. Cook and stir over medium heat until mixture boils and sugar dissolves. Remove from heat. Add butter. Stir until butter is melted and mixture is no longer very hot.

2. Mix flour and baking soda. Gradually add flour mixture to butter mixture and stir to blend thoroughly. Dough will have a soft texture. Place dough in an airtight container and refrigerate overnight or at least 12 hours or as long as 1 week.

3. Heat oven to 375 degrees. Remove about one-sixth of the dough and knead it until it is slightly softened. Roll dough directly onto ungreased cookie sheets until it is about 1/4-inch thick. Use a cookie cutter to stamp shapes in dough, allowing a 1-inch margin between each cookie. Remove excess dough by lifting it and peeling it away. Scraps of dough can be kneaded together and re-rolled.

4. Bake until golden brown, about 7 minutes. Allow cookies to cool slightly and become crisp before removing them from the cookie sheet. Cool thoroughly on wire racks. If desired, you may "paint" the cooled cookies using a clean, small paintbrush and food coloring that has been watered down slightly. Store cookies in airtight containers. Note: After the 12-hour resting period, this cookie dough can be hand-molded like clay--rolled, pinched, poked and pressed--and it will keep its shape, expanding slightly while baking. Thin cookies will become brown and bake quickly, large and thick shapes will require longer baking. Can be cut into any shape desired but make the cookies uniformly thick.

1/2 c Granulated sugar
2 Egg yolks, beaten
1 T Pure vanilla extract
1/2 t Salt
rind of 1 lemon, Grated
1 c Unsalted butter, softened
FILLING =====
12 oz Apricot preserves
1 T Fresh lemon juice
1 T Rum
Confectioners' sugar

1. Sift flour into a large mixing bowl and make an indentation or well in the center of the flour. Add the sugar, egg yolks, vanilla, salt and lemon rind to the well. Mix the ingredients in the well together with the flour. Then cut in the butter using a pastry cutter or two sharp knives. At this point the dough will resemble coarse crumbs. Turn the dough out onto a work surface and knead it with your hands until smooth and firm. Divide dough in half and shape into two balls.

2. Wrap tightly in plastic. Refrigerate until firm enough to roll out, about 1 hour.

3. Meanwhile, heat the apricot preserves over low heat, stirring constantly. Stir in lemon juice and rum. Let cool.

4. Heat oven to 325 degrees. Place the chilled dough on a lightly floured surface or between two sheets of floured wax paper. Roll out with a floured rolling pin to about 1/4-inch thickness. Cut out circles of dough about 2 inches in diameter. Place half of the circles onto greased or non-stick cookie sheets. Cut the other half of the circles again with a small shot glass or cookie cutter to form a ring shape. (Make an equal amount of rings to circles.) Place the rings onto buttered baking sheets. Bake until light gold, 10 to 12 minutes. Cool a little on the cookie sheets.

5. To assemble, brush the still-warm circles with the cooled apricot mixture. Place one ring on top of each circle and press gently (they break easily) to secure. Spoon a small dollop of the apricot mixture into the center of the cookies. Sprinkle with confectioners' sugar. Cool. Store in a tightly closed tin.

1/2 c Granulated sugar
2 c All-purpose flour
1/2 c Seedless raspberry jam or
Currant jelly
1 c Confectioners' sugar
Milk,(1-2 tablespoon)
Colored sugar for decorating

1. Beat butter and granulated sugar in large bowl of electric mixer until light and fluffy. Slowly add flour and blend well. Remove from bowl and knead until shiny. Divide dough in half; wrap in wax paper. Refrigerate dough until it is firm enough to roll, several hours or longer. Let dough soften slightly on counter if too firm to roll.
2. Heat oven to 325 degrees. Roll dough between two sheets of floured wax paper or flatten dough with floured hands to 1/4-inch thickness on a floured surface. Use cookie cutters to make shapes. Transfer to ungreased baking sheets. Bake only until slightly golden, 5 to 7 minutes. Let cool on cookie sheets just long enough to firm cookies and then remove to wire racks to cool completely.
3. To assemble, spread half of the cookies with a small amount of jam and sandwich with another cookie. Put confectioners' sugar into a small bowl and drizzle in just enough milk to make a thin glaze. Frost cookies lightly with the glaze and sprinkle with colored sugar. Let stand until glaze hardens.

1993 3rd Place: Springerle

Yield: 84 Servings

- 1/2 T Baker's ammonia
- 2 T Milk
- 6 Eggs, at Room Temperature
- 1 1/2 lb Confectioners' sugar
(about 6 cups)
- 1/2 C Unsalted butter, Softened
- 1/2 T Anise oil
- 1/2 T Salt
- 8 C Cake flour, Sifted

Preparation time: 40 minutes Standing time: 1 hour plus overnight
Cooking time: 10 to 12 minutes Aging time: 1 week or more

1. Mash baker's ammonia with a rolling pin if it is not powdered. Dissolve it in the milk in a small bowl and let stand 1 hour before using.
2. Beat eggs in large bowl of electric mixer until thick and lemon-colored, about 5 minutes. Gradually beat in confectioners' sugar until creamy and smooth. Add butter and beat again until creamy. Add anise oil, dissolved baker's ammonia and salt; beat to mix. Gradually beat in enough flour to make a stiff dough.
3. Cut off pieces of dough and work in more flour on a floured work surface until dough is stiff enough to roll out and hold the design of the springerle rolling pin or mold. Roll out on a lightly floured board with a floured rolling pin to 1/4-inch thickness. Press design on dough with a floured springerle rolling pin or mold. Cut cookies apart using a floured knife. Leave on work surface covered with a clean kitchen towel overnight.
4. The next day, heat oven to 325 degrees. Bake cookies on greased baking sheets, until barely golden on the bottom, 10 to 12 minutes. Cool on wire racks. Store in tightly covered tins and allow to mellow at least 1 week before serving.

Note: This recipe also can be made using 1 1/2 teaspoons baking powder (in place of the milk and the baker's ammonia) and anise extract instead of anise oil. However, the cookies will not be as delicately textured and the anise flavor not quite as rich. If using baking powder, add it with the salt to the batter.

Apple Strudel

- 2 c flour
- 1/2 t salt
- 1 egg, slightly beaten
- 2 T cooking oil
- 1/2 c lukewarm milk
- 1/4 c butter, melted
- 1 1/2 c white bread crumbs, browned in 1/2 cup butter
- 7 c tart cooking apples, washed, pared, quartered, thinly sliced
- 1/4 c seedless raisins
- 1/4 c currant
- 1/4 c sugar
- 1/2 t cinnamon
- powdered sugar

Sift the flour with salt into a large bowl; make a well in the center & put in the egg & cooking oil. Stir while adding the water gradually to make a soft, rather sticky dough. Work the dough in the bowl until it comes away from the sides; turn out & knead for about 15 minutes with little or no additional flour. Frequently slap the dough down hand on the board and work it until it is elastic & silky smooth. It must not stick to the hands or board. Form into a ball, set on a clean towel & let rest for 1 hour in a warm spot, covered with a bowl which has been warmed in hot water.

Warm your rolling pin. While the dough is resting, cover the work surface with a cloth and rub in about 1-2 TBSPN flour, brushing off any excess. Then place the ball of dough in the center of the cloth & roll with the warm rolling pin into a sheet 1/8" thick. Lift and turn to prevent sticking to the cloth. Take off your rings. Now stretch the dough, using your floured hands, palm side down under the dough. Work carefully, stretching from the center toward the outside. Don't raise your knuckles too high, make a fist and lift from the wrists only. Work gently or you'll puncture the dough. Stretch as thin as possible, moving around the table, unless you can get someone to help you. It should cover the table & hang slightly over the sides of an oval or rectangle about 36" to 40" long and 30" wide. Trim off the edges, which will be a little thick. If you have made a hole, moisten the area around it with a little water and patch with a thin piece of dough from the trimmings. Let the dough rest and dry to 15 minutes while you peel, core & slice the apples.

Now brush entire surface with melted butter, then sprinkle with bread crumbs. Mix sliced apples, raisins, currants, sugar & cinnamon. About 3" from on edge of the pastry and running the long way, shape fruit mixture into a bar, leaving 2" margins each side. Fold 3" end piece of dough over apples then fold the 2" margins in too. Now lift the corners of the cloth & let the pastry roll up. Stop after each turn, patting filled pastry to keep bar shape even. Roll until stretched dough is used up. Brush with melted butter & slide strudel onto lightly buttered baking sheet, curving it into a U shape.

Bake in a 375 degree oven for about 40 minutes or until golden brown. Sprinkle with powdered sugar & serv warm. Pan size 10x15 Serves 10-12

Spread into greased 8-inch square baking pan. Bake for 25 to 30 minutes or until sides of bars begin to pull away from edges of pan.

Chocolate Zebra Cheesecake

- 1 1/2 c chocolate wafer crumbs
- 3 T butter, melted
- 3 oz semi sweet chocolate chips
- 32 oz cream cheese, softened
- 1 1/4 c sugar
- 3 T cornstarch
- 1/4 t salt
- 5 lg eggs
- 8 oz sour cream
- 2 t vanilla
- 1 1/2 c heavy cream, or whipping cream
- 12 oz semi sweet chocolate
- 8 oz white chocolate

Preheat oven to 350 degrees. Grease 9" springform pan. In bowl, mix chocolate wafer crumbs & butter; firmly press onto bottom of pan. Bake 12-15 minutes. Remove crust from oven & sprinkle with chocolate chips. Let stand until soft then spread over crust. Refrigerate while preparing filling.

In large bowl, beat cream cheese until light in small bowl, mix sugar, cornstarch & salt. Slowly beat into cream cheese until blended. With mixer at low speed, gradually beat in eggs, sour cream, vanilla & one cup heavy cream until blended & smooth.

Divide batter evenly into two 4-8 cup measuring cups or containers with pouring spout. In small saucepan over low heat, melt 8 oz semi sweet chocolate. In another small pan over very low heat, melt the white chocolate. Stir melted semi sweet chocolate into batter in one measuring cup & stir melted white chocolate into batter in 2nd measuring cup.

To create "zebra" design pour half of dark batter into springform pan. Holding white batter about 2 feet above pan, pour about half of batter. Pouring from this height will cause batter in center of cake to be pushed toward edge of pan, forming zebra design. Repeat procedure three times, decreasing the amounts of batter each time & pouring from high above pan only into center, ending with white batter. Top of cake should look like a series of concentric circles.

Bake cheesecake 30 minutes. Reduce heat to 225 degrees and bake 1 hour and 45 minutes longer or until center is set. Turn off oven; let cheesecake remain in oven 1 hour. Remove cheesecake from oven. Run spatula around edge of cheesecake to loosen. Cool cake on wire rack. Refrigerate cake at least 6 hours or until well chilled.

GLAZE In 1 quart pan over medium heat, heat remaining 1/2 cup heavy cream until small bubbles form around edge of pan. Remove from heat. Stir in remaining 4 squares semi-sweet chocolate until smooth. Cool glaze 10 minutes. Meanwhile, carefully remove cake from pan to cake plate, with spatula, spread glaze over top & side. Refrigerate 30-45 minutes until glaze is set.

****filling****

3 ea egg whites, room temperature

1 c semi-sweet chocolate chips
1/2 c walnuts (or pecans)

****streusel topping****

1/4 c butter
1/2 c sugar

1/2 c walnuts (or pecans)

To make dough, melt butter with the milk and sour cream in a small saucepan. Cool to 115 to 120. Stir the flour and sugar together in a large bowl. Sprinkle in the yeast. Make a well in the center and stir in the egg yolks. Stir in the butter mixture until well blended. Place a piece of plastic wrap directly over top and cover with a damp cloth. Refrigerate 24 to 48 hours. Remove dough from refrigerator and leave at room temperature until soft enough to roll, but still very cold.

Meanwhile, make the filling by beating the egg whites in a mixing bowl until soft peaks form. Gradually beat in the sugar, 2 tablespoons at a time, until the whites are stiff, smooth, and shiny. Divide the dough in half and roll one half on a lightly floured surface into a 12" x 18" rectangle. Spread half the meringue over the dough, leaving a 1" border. Spread half the raspberry filling over meringue. Sprinkle with half the cinnamon, chocolate chips, and nuts. Roll up jelly roll fashion. Repeat with other half of dough. Grease and flour a 12 cup angel food cake pan.

Place one roll around bottom of the pan. Top with second roll, placing ends facing each other. Cover with waxed paper and damp towel; let rise in warm place for 2 to 3 hours, until double.

To make streusel, combine butter, sugar, flour, and nuts with a pastry blender until crumbly. Sprinkle over top of cake. Cover and let rise 1 additional hour. Preheat oven to 350. Bake 40 to 50 minutes until top is browned and cracked.

Mom's bean pickles are a great favorite in the Wolkerstorfer family, where the children prefer them to buttered beans or to dill pickles. For a crisp product, pick beans at a slightly firmer stage than for eating and process immediately. Veronica Wolkerstorfer prefers wide-mouth pint jars, so she can pack the beans lengthwise.

Double Gingerbread Dump Cake

Yield: 24 Servings

1 1/2 butter,12 TBSP
1 1/4 c dark brown sugar,packed
1 c sugar
2 T vanilla
1 1/2 t ginger,Ground
1 T fresh ginger,rounded
1 1/2 t baking soda
1 1/2 c buttermilk
1 3/4 c all purpose flour
6 T corn starch,leveled
3/4 c whole wheat flour,plus 2
-TBSPN

Preheat oven to 350 degrees. Place rack in center of oven. Place a glass or metal pan filled with water on bottom of oven. This will make a moister cake.

Lightly mist a 12 cup Bundt pan with vegetable oil spray, then dust with flour. Shake out the excess flour, then set aside.

Melt butter. Stir in sugars, vanilla, eggs, gingers and baking soda. Add baking soda in pinches. Break up the lumps by rubbing with your fingers. Stir in buttermilk. At this point to ensure a good mix you could beat the batter.

Stir in corn starch and flours until just well blended. Once you have added flour you do not want to "mess with" the batter. The more you stir your batter after you have added the flour, the tougher your cake will become. Pour into cake pan, tap the pan once or twice on the counter to get any air bubbles out of the cake batter.

Start to check on the cake after 60 minutes of baking time. With the pan of water in the oven it may take up to 75-80 minutes of baking time. When done you should be able to smell the cake, look for the sides of the cake to pull away from the pan and finally test the center of the cake with a cake tester.

Cool the cake for 20 minutes. Invert cake on plate. Cool completely.

Serving suggestions: dust with powdered sugar, lemon powdered sugar. Serve with Cool Whip, whipped cream, vanilla/butter sauce or lemon sauce. Frost with lemon frosting or icing or a cream cheese icing.

Hazelnut Honey Pie

6 T butter, Unsalted
2 c hazelnuts, shelled
3/4 c light corn syrup
1/4 c honey
1 c sugar
3 lg eggs
1 t vanilla
1/8 t salt
1 9" pie shell, unbaked
2 c whipped cream, garnish

Preheat oven to 350°F.

Over low to medium heat, melt butter in a heavy saucepan. Watch closely, but do not stir. Cook until golden brown, about 20 minutes. Do not allow butter to burn. Remove from heat and set aside.

While butter is browning, toast and skin hazelnuts: Place hazelnuts in single layer on half sheet pan. Bake 10 to 12 minutes, shaking pan occasionally. Remove pan from oven. Allow nuts to cool slightly. Place in a clean towel and rub together to remove some of the skins. It is not necessary to remove all of the skins. Cool completely. Coarsely chop half of the hazelnuts. Leave remainder whole. Raise oven temperature to 425°F.

In food processor, blend corn syrup, honey, sugar, eggs, vanilla, and salt until smooth. Add browned butter; blend again. Add whole and chopped hazelnuts and process with just a few quick on-off pulses.

Pour mixture into pie shell. Bake at 425°F for 5 minutes; lower heat to 350°F; bake another 45 to 50 minutes. NOTE: center of pie will still seem a bit liquid when removed from oven; it sets up further as it cools. Let cool completely. Serve each slice with a generous puff of whipped cream.

Oleo Pastry (Margarine)

2 c lightly spooned flour
1 t salt
1 T sugar
12 T oleo
1/4 c cold water

Sift together flour, salt & sugar. Cut half the mixture into the oleo with a pastry blender or two table knives until the mixture resembles cornmeal. Cut the rest of the oleo until it resembles small peas. This makes a flakier crust. Sprinkle the mixture with water, adding enough extra to make pastry hold together. Use a pastry blender or fork because the heat of your hands will tend to melt the oleo. Mix just to moisten & form into a ball. Let stand in the icebox for a few minutes while you prepare the pie filling ingredients. Or, wrap in plastic & chill several hours or overnight.

ROLLING OUT: Divide the dough in half. Roll bottom crust on a lightly floured pastry cloth. Roll out at least 1 inch wider than pie pan. If crust breaks, gently pinch together with fingers. Always roll from center outward. Place in pie pan.

 - Vegetable oil to coat bowl and baking pan
- ### Filling
- 1 T margarine, melted
 - 1 c pecans, Chopped
- ### Glaze
- 1 c confectioners sugar
 - 7 t milk
 - 2 T pecan butter

Add yeast to warm water and let stand for 10 minutes. In a large measuring cup or saucepan, combine milk and heat to 115 degrees F (1 1/2 minutes in a microwave or 4 minutes in a saucepan). Pour this liquid into a medium-sized mixing bowl. Add pecan butter, salt and oat bran hot cereal and mix well (you may use a mixer). Let sit for 5 minutes to soften the oat bran hot cereal. Blend egg whites and yeast into oat bran hot cereal mixture.

Add Hodgson Mill Best-for-Bread white flour and unbleached flour to make a soft dough. Turn onto a lightly floured surface and knead until smooth, about 10 minutes by hand or 4 minutes in an electric mixer or food processor fitted with a dough hook. Put dough in oiled bowl, turning once to coat thoroughly. Cover with a damp cloth and allow to rise in a warm, draft-free place until doubled, about an hour. Knead down. Turn onto a lightly floured surface. Divide dough in half and let rest for 10 minutes. Roll out half of the dough into a rectangle 12 by 8 inches, brush with melted margarine. Sprinkle 1/2 cup chopped pecans over the dough. Roll dough, starting with the long side. Seal the edge, cut into one inch slices, and place, cut side down, on prepared pans. Repeat this procedure with the other half of the dough. Cover with a damp cloth and allow to rise in a warm, draft-free place until doubled in size, about 45 minutes. Preheat oven to 375 degrees F. Bake about 15 minutes, until golden brown. Remove rolls from pans and cool on racks.

In a medium-sized mixing bowl, combine confectioners sugar, milk and pecan butter; mix well. Drizzle rolls with glaze when cool. You can sprinkle extra ground toasted pecans on top if desired.

To make pecan butter: toast pecans and grind real fine. Add 1 tablespoon sugar and 1 tablespoon cooking oil per 1 1/2 cups ground pecans. Mix well.

- 1/4 c cornstarch
- 1 3/4 c superfine sugar,divided
- 1 1/2 t baking soda
- 7 lg eggs,separated plus 2-3 additional egg whites to make 1 1/2 cups whites
- 1/2 c safflower oil,or use corn or canola oil
- 2 t vanilla extract
- 1 t salt
- 1/2 t cream of tartar
- GLAZE
- 2 oz semi-sweet chocolate
- 1 1/2 oz unsalted butter,3 TBSPN
- 1/4 c whipping cream
- 1 c powdered sugar,Sifted
- 1/2 t vanilla
- 1 pn salt

Adjust oven rack one third up from the bottom & preheat the oven to 325 degrees. In a small bowl whisk the cocoa & espresso or coffee with the boiling water. Stir in the rum & set aside. In a large bowl, sift together the flour 1 1/4 cups sugar & baking soda. Set aside.

In a small bowl, beat the egg yolks (reserve egg whites) until well mixed. Beat in the oil, vanilla & cocoa mixture. Add this mixture to the sifted dry ingredients mixture & beat until smooth, scraping the bowl occasionally with a rubber spatula.

Place egg whites & salt in a clean large bowl & beat at moderate speed until foamy. Make sure bowl & beaters are clean before beginning this process. Add cream of tartar, increase to high speed & beat until the whites hold a soft shape, a peak that bends over when the beaters are raised. On moderate speed, add the remaining 1/2 cup sugar sprinkling 1 rounded tablespoonful at a time. When all the sugar is added, increase the speed to high & beat until the whites hold a straight, firm peak when the beaters are raised. Remove the bowl from the mixer.

With a large spatula or angel food cake folder, fold about 1/3 of the cocoa mixture into the whites without being too thorough. Briefly fold in another third of the cocoa mixture without being too thorough. Finish adding the remainder of the cocoa mixture & fold only until just barely blended. Do not handle more than necessary.

Turn the batter into a 10" 2 piece angel food pan. Tilt the pan to level the batter. Bake for 65-70 minutes until the top springs back when gently pressed with a fingertip. The top will form deep and wild looking cracks.

Remove the pan from the oven. Cool upside down by hanging on the neck of a bottle. Let hang until cool. Remove from pan.

GLAZE: Melt chocolate in heavy saucepan with butter & cream. Stir over moderate heat until perfectly smooth. Mix in sugar, vanilla & salt, remove from heat.

Let stand at room temperature for 5-10 minutes stirring frequently until mixture begins to thicken.

The Wisconsin State Fair Cream Puff

1 c water
4 T butter (1/2 stick)
1/4 t iodized salt
1 c all-purpose flour, sifted
4 ea eggs
1 ea egg yolk, lightly beaten
2 T milk
2 c whipping cream, whipped with vanilla extract & sugar
powdered sugar, sifted

Heat oven to 375. Butter and flour 1 very large or 2 small baking sheets, or line with parchment paper.

Pour water into heavy saucepan. Cut butter into small pieces and add to water. Add salt. Place saucepan over medium-low heat so butter melts before water boils. Bring water just to boil.

Remove pan from heat and add flour all at once, stirring vigorously with a wooden spoon until dough forms into a ball and bottom of pan is filmed with flour. Let dough rest 5 minutes.

Add whole eggs, beating in one egg at a time. Dough should be stiff but smooth.

Immediately drop 1/4 cupfuls of dough 3" apart on baking sheet. (Or for a neater appearance, use pastry bag with 3/4" plain tip and pipe dough onto baking sheet.)

Combine egg yolk and milk in a small bowl. Brush each puff with glaze mixture, taking care not to let liquid drip onto pan.

Bake 35 minutes, until puffed, golden brown and firm.

Cool puffs on wire racks, pricking each with a cake tester or toothpick to allow steam to escape, or leave them in a turned-off oven with the door propped open for about an hour, until firm. (If baked pastry is filled before cool and firm, it will be soggy and may collapse.) Baked puffs should have hollow, moist interiors and crisp outer shells that are lightly browned.

Cut off tops, fill with whipped cream (use pastry bag with star tip or scoop the whipped cream with a large spoon.) Replace the tops of the puffs and sprinkle with powdered sugar.

1/4 c lard, melted
3 c flour
3 c whole wheat flour
1 T yeast, or 1 package
1/2 c water
1 c scalded milk
1 c cold water
1/4 c flour, for dusting board &
hands

Soak yeast in warm water. Set aside. In a large mixing bowl, put sugar, salt & melted lard. Add scalded milk & cool water. Then add the yeast mixture. Mix in the flour, 2 cups at a time, stirring & beating until the mixture is heavy enough to put on a bread board to knead. Knead until you have a smooth elastic dough.

To test for the perfect amount of flour, let dough lay on board with your hands on it. Count slowly to 30. If dough does not stick to your hands or board, there is enough flour in it.

Return to bowl. Grease on top & cover with plastic. Let rise to double, about 2 hours. Punch down & let rise again for a finer texture. Shape into 2 loaves. Put into greased 8x5x2 1/4" inch pan. Let rise one hour.

Bake about 45 minutes at 375 degrees. Keep the dough warm, about 80-85 degrees is best. Your bread is done when it will fall out of the pans.
