- Introduction -

Dear valued customer,

Thank you for purchasing "**299 Places To Advertise**". My name is **Ian del Carmen** and I own the sites at

<http://www.ianDelCarmen.com> and

How To Use This Report

The best advice I can give you is to read everything over once. If you can, do it in one sitting, then re read it again. Then, read the sections again that you are not sure about, and if you can, get someone else to read it as well, and both of you make notes.

There might be some website links in this report so it probably is best to read this report while you are online so you can see exactly what I'm talking about throughout the report.

Classified advertising has always been, and will continue to be the favorite method for Mail Order "Pros" to advertise. Almost all Mail Order Pros started with these tiny inexpensive ads since they represent the best cost effective way to reach millions of people.

TWO BASIC METHODS

Two basic methods are used with classified advertising. (1) Place an ad offering FREE literature, and then send your literature to all inquiries. A "free" offer will always out pull an ad that requests money, but your overall profits may be larger since you will generate more inquiries. This method is excellent when you are also collecting "Opportunity Seeker" names that you can rent. You should be able to generate fresh National leads for \$.20 to \$1 using this method. (2) Offer a report for \$2 or \$3 and then send out other offers with your orders. This eliminates the "Opportunity Seeker" who never buy anything, and your operation is much cleaner and void of "busy" work.

OVER 200 LISTED PUBLICATIONS

The following is a listing of over 200 magazines that offer classified advertising. The first group of magazines represent the mail-order "Pros" favorites, and they will always out pull other magazines for opportunity offers. The second group has been selected from thousands of other magazines (1) they offer classified advertising, and (2) they are the least expensive (Word Cost/Circulation ratio). Notice that the last column provides the Word Cost/Circulation ratio. That is, this ratio shows you how much it will cost you for each word for every 1,000 people who get the magazine. The lower this ratio is, the more cost effective it is. For example, if you were to advertise in the National Enquirer, it would cost \$8.95 for each word, and it will cost you \$.0023 for each 1,000 persons that get the National Enquirer. In this example, if you placed a 10 word ad, it will cost you \$89.50, and it will be sent out to 3,500,000 people.

COST/CIRCULATION RATIOS

This may seem like an expensive ad, but the cost to get your 10 word ad to 1,000 people is only $(\$0.0023 \times 10) = \0.023 ! That's right - two cents!! For every 1,000 people! Therefore, learn to evaluate the circulation/cost ratio since this will tell you the relative cost that is important. As a further example, consider advertising in the "Hounds And Hunting" (#238). Here the cost for a word is

only \$.22. Good Deal? NO! In this case your Word Cost per 1,000 is \$.0227. Therefore, your cost to place a 10 word ad per 1,000 people is (\$.0227 x 10) = \$.227! That's over 10 times more expensive than the National Enquirer! However, if you were selling something for hunting, it might actually pull better than National Enquirer.

ASK FOR RATE CARD

Before you place an ad, write to the magazine and ask for their "Rate Card" for both classified ads and space advertising. You will normally receive a large package containing a sample publication, advertising rates, schedules and discounts offered for multiple insertions placed for sequential publication dates.
