It is well known the power of getting a .Edu or .Gov backlink to your can have in increasing your sites ability to rank higher in the search engines. Well here is a list of .Edu blogs that you can post comments too. On each of the blogs I was able to post my Anchor Text/Link too.

After you post your Link then go to <http://pingomatic.com> and PING the website you posted your Anchor Text/Link to so that the search engines can find it.

Here Are Some Helpful Tips:

Check too see what the other post that have been allowed to comment look like. Some of the blogs are picky and some are not. If they are not you can post just about anything you want that looks halfway decent such as:

“Love the blog I am so glad I found it I will definitely be coming back to read more.”

Now other blogs you are going to have too make your comment relevant too what the site article is about. Now if you are a bit LAZY like myself then at least read what the other comments are saying and then post something along the lines of what they said pretty easy to do.

The other thing is PLEASE PLEASE PLEASE

DO NOT SPAM

While it is alright for you to post more than one Anchor Text/Link as comments I would advise that you use different email addresses when you do and that shouldn't be too hard to do, I actually create different Gmail accounts for the purpose of posting too sites like these.

Alright well enjoy the .EDU backlinks and feel free to pass this on to your friends so that they can increase their sites search engine rankings as well.
