## Viral Clickbank Footprints

There are plenty of products available today for those looking to combine the Clickbank marketplace and Pay Per Click (PPC) advertising. (usually Google Adwords). This report focuses on alternative options for those who feel they lack the experience, the nerve or just don't have the budget available for marketing Clickbank products via PPC.

Unlike PPC, most of the methods discussed in this report are free or very low cost. The techniques may take a little time to pay off but persevere and they will work for you. Think of these ideas and tools as a long term proposition as opposed to a fast overnight cash injection. They cannot replace a well run PPC campaign but they can still earn you some money.

If you are a Clickbank affiliate and you are struggling to make any sales, or are seeing only the very occasional commissions, this report should help you improve your performance.

There are no claims of "secrets" or never before seen tactics, just honest and to the point advice and systems that will work if you implement them. Even if you have no "list" no advertising budget and no website of your own.

Although the third party tools and programs discussed in this report are available for free, most also offer upgrade options that do make them more effective. However, even if you don't want to spend any money at all, you can still use these services and this book to promote them. So how does it work?

Later I will explain how you can change the links in this book to your own before giving it away. Yes, *this report is rebrandable*.....in other words, you can make it yours and profit from giving it away in whatever way you choose, virally growing your Clickbank exposure on the web.

Sound good? OK, let's get down to specifics and start making you some Clickbank commissions. We'll return to the rebranding process later....

## Viral Clickbank Footprints

First, a quick bit of background. Most new affiliate marketers are often drawn to Clickbank because:

- a) it is a well known network
- b) it pays high percentage commissions and
- c) they are told all the time that they will make a fortune.

Newer Clickbank affiliates usually soon find that the fortune part is not as easy as so many people would have them believe despite the performance of some "super affiliates".

Once you accept this you may become disillusioned and consider giving up on Clickbank altogether and perhaps even on affiliate marketing completely because: it "doesn't work for me" becomes an insistent voice in your head.

Don't quit. Keep looking for new ways to improve your odds of making sales and to steadily grow your "Clickbank Footprint" on the web.

This report is designed to help you change your Clickbank results for the better. It may not make you rich beyond your wildest dreams, but if you follow these strategies, you should start seeing returns by way of commissions in your Clickbank account reporting every week or month.

I have used every one of these tactics to improve my own affiliate sales to the point where I can count on a few commission notifications every week – maybe not thousands a month but some steady sales. Surely that has to be better than all those depressing zeros.

When you finish reading through this report you will know exactly how you can virally grow the number of links appearing all over the internet that contain your Clickbank affiliate ID. So, if you you are looking for realistic and achievable sales, read on.

## Viral Clickbank Footprints

*First things first - for any of this to work you will need a Clickbank affiliate account. If you don't have one yet go and get your free [Clickbank Affiliate ID](#) here now.*

Assuming that you are now a fully fledged Clickbank affiliate, let's take a look at the services you are going to be using to help you make some money.

The first of these is a free but very well featured program that can be used in a variety of ways to reach a target audience.

[OTO Goldmine.com](#)

OTO Goldmine has proved to be a very successful program for many and it can be for you too. It doesn't matter if you don't have a web site of your own, you can still use some of the features to good effect and make money in various ways.

So what does it do?

## Viral Clickbank Footprints

OTOG allows you to create up to ten "one time offer" pages that contain a varied selection of packaged software and ebooks. The generated offers are hosted on the owner's server, so there is no complicated set up involved and no need for you to even have a site of your own. ( [Example Offer Here](#) )

It is simple to create the offers and tailor them to your requirements. You can then use these one time offers in a variety of ways:-

Use the URL's to your offers as signatures in emails and forums. I've even seen people use them in traffic exchanges (probably not with the best of results it's true).

If you have an email list or newsletter you can use the offers as thank you pages for your subscribers both at the time of sign up and/or when people unsubscribe. Using the OTO pages in conjunction with your autoresponder service is very straightforward. Alternatively you could just use them on your web site or blog as offers for your visitors by linking to an image or text ad for example.

OTOG offers can be employed as thank you pages anywhere you choose. When creating pages you can include a redirect option to a website of your choice if visitors say "no thank you" to the offer you have presented them with, giving you another chance to make a sale of an alternative product or service or generate a sign up to another of your programs.

If you have a website of your own you can get even more creative. Use OTOG offers as error pages throughout your sites - this can and does lead to sales. The site gives full details on how to set up your error pages if you are unsure. (There are video tutorials for all features of the site).

You can even use the one time offers in conjunction with other people's sites. Say you are promoting a Clickbank or other affiliate page - you can send your visitors through a "special module code" that will redirect visitors to your OTO when they leave giving you another chance to make a sale.

## Viral Clickbank Footprints

The program is free but there is an upgrade option available. As a member, every person you refer to the program will generate a commission for you if they upgrade their membership and you will earn more as a pro member than as a free one. Pro members also have the ability to set up twenty separate campaigns - free members get only ten.

Also, as a pro member, your Clickbank ID will be rotated through products sold on the OTO Goldmine site itself, giving you more potential for commissions.

The products on offer are generally internet marketing related and the OTO sales pages convert reasonably well - when you target the right audience.

If you have no idea how to set up one time offer pages yourself, this site is a great alternative and will increase your Clickbank footprint as well as help make you money, both through the use of OTO's and by promoting the program to others in the IM niche.

Once you have signed up be sure to watch the instructional videos which will help to ensure you get the very best out of the tools on offer.

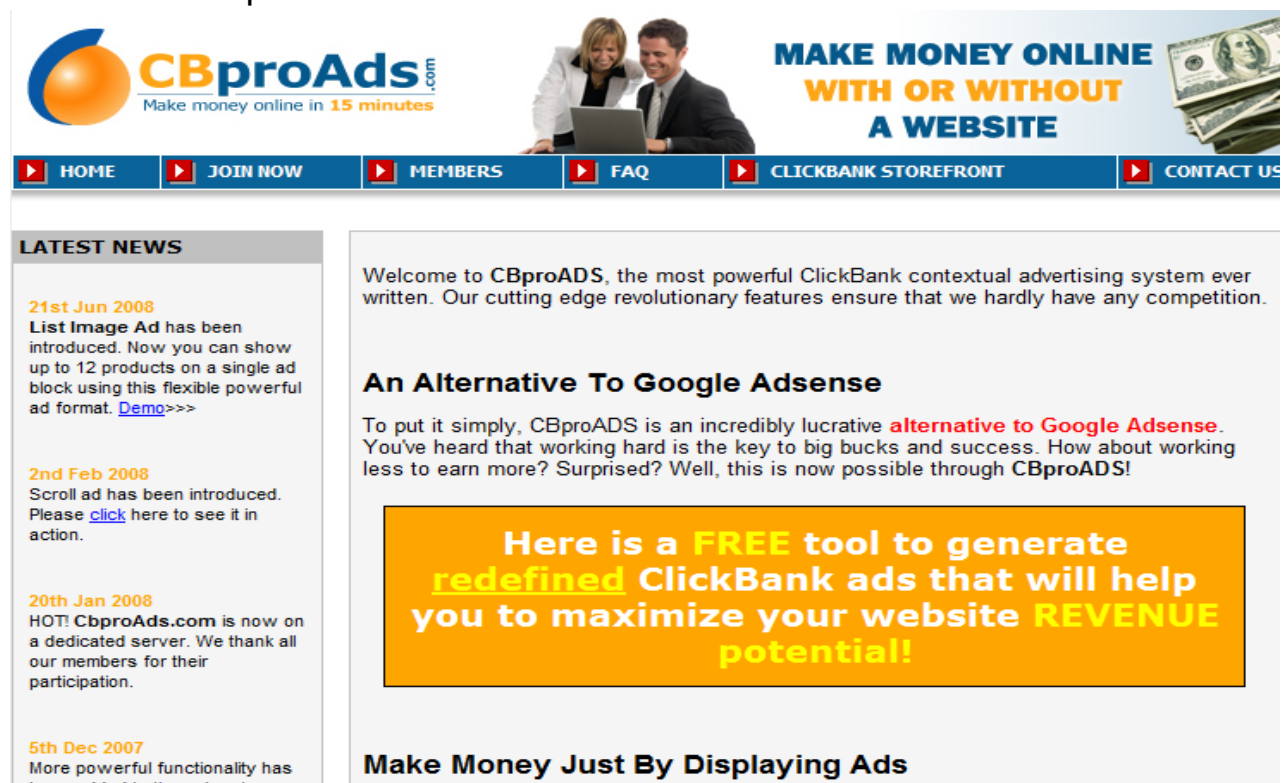

[Get your free OTO Goldmine account here.](#)

# Viral Clickbank Footprints

Our second program is one primarily for webmasters and bloggers, although again, it can still be put to good use by those who have no website of their own.

**CBProAds** offers multiple features for Clickbank affiliates, and they include a free service option.

The screenshot shows the CBproAds website. At the top, there's a header with the CBproAds logo (an orange circle with a blue swoosh) and the text "CBproAds.com Make money online in 15 minutes". To the right of the logo is an image of a man and a woman looking at a laptop. Further right is the text "MAKE MONEY ONLINE WITH OR WITHOUT A WEBSITE" and an image of a stack of US dollar bills. Below the header is a navigation bar with links: HOME, JOIN NOW, MEMBERS, FAQ, CLICKBANK STOREFRONT, and CONTACT US. The main content area is divided into two columns. The left column is titled "LATEST NEWS" and contains four news items: "21st Jun 2008 List Image Ad has been introduced. Now you can show up to 12 products on a single ad block using this flexible powerful ad format. [Demo](#)>>>", "2nd Feb 2008 Scroll ad has been introduced. Please [click](#) here to see it in action.", "20th Jan 2008 HOT! CbproAds.com is now on a dedicated server. We thank all our members for their participation.", and "5th Dec 2007 More powerful functionality has been added to the sub categories". The right column contains a welcome message: "Welcome to CBproADS, the most powerful ClickBank contextual advertising system ever written. Our cutting edge revolutionary features ensure that we hardly have any competition." Below this is a section titled "An Alternative To Google Adsense" with the text: "To put it simply, CBproADS is an incredibly lucrative **alternative to Google Adsense**. You've heard that working hard is the key to big bucks and success. How about working less to earn more? Surprised? Well, this is now possible through CBproADS!" Below this text is a large orange box with the text: "Here is a **FREE** tool to generate **redefined** ClickBank ads that will help you to maximize your website **REVENUE** potential!". At the bottom of the right column is a section titled "Make Money Just By Displaying Ads".

As the name suggests, CBProAds enables webmasters and bloggers to place a small piece of code on their pages to generate contextual ads, all linked to products in the Clickbank marketplace.

These ads are highly configurable and can be targeted to audience interest. It's similar to running Adsense on your pages although you are of course rewarded on a Pay Per Sale basis as opposed to a Pay Per Click model. There are both text and image based ads, as well as portal pages and like

## Viral Clickbank Footprints

AdSense it's pretty much set and forget advertising. You can add discrete search boxes to any pages you choose which will redirect to your storefront (see below), as well as banner ads in all the popular formats, all generated from the member's area. If you are suffering abysmal PPC revenue on any site or have even had your account closed, this is a very attractive alternative and can generate far higher commissions than unresearched PPC ads.

The second aspect to CBProAds is your own Clickbank storefront, which is filled with over 6000 Clickbank products and includes images and good descriptions. You can use subject specific URL's when promoting your store so you can target any promotions to a relevant audience.

As a free member, if you use the ads on your site, not all of the links will be embedded with your Clickbank ID. 50% of them will contain your referrer's link if you sign up under a pro member, or the site owner's links if your referrer has not upgraded.

As you can see, by just promoting and signing up new users, ads containing your Clickbank ID will start to spread.....IF you are a pro member. You will also earn commissions each time one of your referrals upgrades and this in itself can make you some good money. The upgrade is attractively priced, a low one off payment, and turns the free membership into an even more powerful service that people will pay for.

The Clickbank storefront feature is only really viable for upgraded members and that's a good enough reason for users to go Pro. Once they do, they can customize their storefront - change the wording, insert header and footer graphics and text or banner ads. Unlike many generic storefronts, your CBProAds store need not look like everyone else's. You can easily direct visitors to topic specific pages within your store if you are targeting a particular niche.

[Sign Up For A Free CBProAds Account Here](#)

## Viral Clickbank Footprints

You are now in a position to earn money from not only your Clickbank sales but also from promoting this free rebrandable book and the two programs we have already discussed.

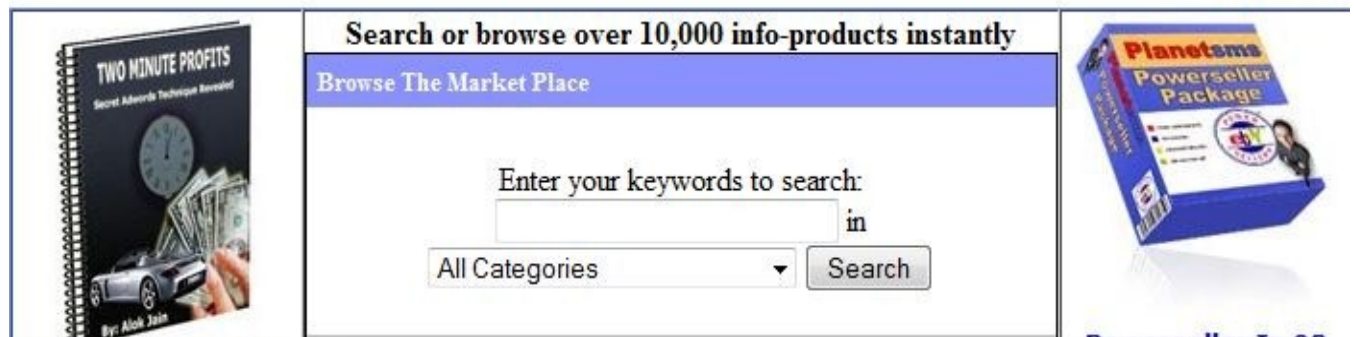

But why stop there? There are plenty of other services you can look into that will do similar jobs. In fact there are far too many to list in this one report.

When it comes to free Clickbank storefronts or malls there are several more on offer and one of the most fully featured is [CBGlobe](#). This will provide you with a storefront as well as the ability to place Clickbank text ads and portals on your pages, similar to CBProAds.

[Get a FREE Website Like This One & Make Money!](#)

Brought to you by  
Maurice Snel

Perhaps not quite as slick, CBGlobe still provides a lot for something that is entirely free with no upgrade options. You can earn from just giving away free portals and the site's owner provides his own rebrandable ebook as a promotion aid. You can earn from your referrals efforts, from sales of the one time offer they see when they join and of course from your Clickbank

## Viral Clickbank Footprints

ads, portal and storefront.

For full details visit the [CBGlobe Signup page](#) and get your free portal.

Our next program is slightly different again and hooks you up with a Clickbank Search Engine for your webpages and is the brainchild of [CBMall](#) founder Jeff Mulligan.

**Bloggers: Make money with this search engine on your blog. FREE! - [Click here.](#)**

## Viral Clickbank Footprints

SearchFeast works by adding a small piece of code to your sites that will generate a once only pop under for your visitors. Thus, when they leave they will see a search page. If they use the search and find what they are looking for and buy - you will earn a commission from the Clickbank sale. You can even preload a search term of your choice if you wish. You can also brand your search portal with a link of your choice so there is a bit more exposure for your business right there.

If you're reluctant to install a pop under or have no place to install one, you can still send traffic to your search page in other ways. The popunder is discreet and will load only once per browser session so it is not too annoying for visitors. Some people will not like them however.

### [Get Your Free Account At SearchFeast](#)

Additional free Clickbank advertising alternatives for your sites can be found at both [CBClicks](#) and [ContAds](#). Both services comprise a viral element reliant on your ability to promote the programs and to find people who will take action.

Whilst writing this report I was mindful of the fact that when it comes to viral marketing, ease of use is a major factor in just how successful a program can or will be. I have therefore tried to concentrate on the systems that offer a user friendly experience that serves to enhance their effectiveness.

You now have a collection of services that will, in time, virally grow your Clickbank presence online. However, we are not done yet and have saved possibly the best for last.....

If you use the services and promote them regularly, you will make money. By rebranding this book and giving it to as many people as you can, you will make money. You cannot say that you don't now have some great tools at your disposal. You can find many more CB tools by visiting the [Clickbank Product Inventory For Affiliates and Affiliate Managers](#)

## Viral Clickbank Footprints

OK, the final word goes to an expert in viral marketing. The next tool we are going to be using is Harvey Segal's Ultimate Supertip.

When this ebook was launched it was hailed by one marketer as the greatest viral marketing idea of all time. It is amazing that not more people have discovered the potential of this free ebook, and even if you are not a Clickbank affiliate, it comes highly recommended for anyone promoting a product or service online.

There are so many features that make the Ultimate Supertip worthwhile but as we are concentrating on Clickbank we will start there. This book will earn you commissions due to its viral nature.

Getting a copy of the book costs you nothing and you don't even need to opt-in to an email list to get it.

Once you have the book, read it through carefully and you will soon see the benefits for you as an affiliate. A brilliantly executed viral idea.

In summary, you can choose from three levels of ownership, and all are more than affordable. The third, and of most interest to Clickbank affiliates, is what Harvey calls the Superlink. I think I'll let the book explain that to you, but, in short, this will generate ongoing Clickbank sales for you as well as direct affiliate commissions from the book itself - 100% commissions at that!

There really isn't anything else quite like it and you can use this report as a promotional vehicle for your own Ultimate Supertip affiliate link, just by giving it away to as many people as you can after you have rebranded it. The only way it won't work is if you don't take action.

## Viral Clickbank Footprints

[Download Your Free Copy Of The Ultimate Supertip Here - Direct No Opt-in](#)

This ebook has the potential to make you excellent commissions regardless of whether you are promoting Clickbank products or not and contains some really useful marketing knowledge from a very innovative thinker and gets my very firm endorsement.

That wraps up the bulk of this report, but I have compiled a short list of further resources which you may find helpful when promoting online, together with a few rules and suggestions about this report. During the course of investigating the services to include here, there were many that caught my eye, but I rejected a number of them due to high initial or ongoing costs and others because I have never used them myself.

I have not included things like Clickbank RSS feeds because of all those I have found and tried, they simply did not convert and most were costly experiments. There was one free Clickbank RSS feed generator available but it was incapable of generating good product descriptions and looked very messy when displayed on a webpage.

Let's now move on and look at a few promotional pointers and details on how you rebrand this report with your own affiliate links.....

## Viral Clickbank Footprints

A few promotional tips and comments.

Why should you promote this free report?

Everyone loves free stuff and marketers and affiliates are no exception. If you don't belong to any of the programs and services, you can either sign up or pass. Even if you only use one or two of them, you can still rebrand the links you want to and leave the others as they are. (Remember though, if you do this, you will be giving referrals and sales away to someone else).

Giving away a free report is simple and effective. The rebranding facility makes it much more attractive to others as they can benefit from giving it away too. In terms of free advertising, rebrandable viral reports and software are very effective. It's also far easier to promote one report than all the individual programs. It saves you time, it saves you money, and it works.

Simply giving away your rebranded version of this report will return positive results. However, you may well wish to use other marketing and advertising avenues for the individual programs and you are of course free to do so.

For your Clickbank storefronts, or indeed any affiliate links, I strongly recommend that you cloak/redirect your naked affiliate links. Cloaker Buzz Elite is a free download for readers of this book and you will have full giveaway rights to the software. [Download Cloaker Buzz Elite](#)

You will need hosting to use the software but if you do not have a domain and hosting of your own there are many redirection services available and the following two sites may be of interest - there are plenty more out there.

- 1) [Leads Leap Link Cloaker/Tracker](#)
- 2) [OffTo.net Link Cloaking/Tracking](#)

## Viral Clickbank Footprints

Article marketing is still a great long term promotion strategy for internet marketers and used in conjunction with your new Clickbank sites, storefronts, portals, monetized web pages or blogs and this free report it will help you drive more traffic to your sites and increase backlinks, growing your Clickbank footprint even further. Use articles to promote your link to this report too.

You can learn how to make article marketing work for you with the only definitive guide - [Article Marketing Domination](#) by expert Josh Spaulding.

So, let's wrap this up.

You have taken the first steps by downloading and reading this report. Now, having joined some or all of the recommended programs, it is time to rebrand the document with your own referral links. You have the rights to rebrand the report using the rebrander software but must make no other changes to the document which remains the property of the original author and is a copyrighted work.

You are free to give the report away in whatever manner you see fit, provided you adhere to these terms. Offer it either as a gift in return for list subscribers or just give it away, no strings attached - it's up to you. The more hands you can put your branded report in, the better the results will be. Promote it to your contacts on your social networking sites, put it in email and forum signatures or anywhere else you interact with others who are looking for ways to make money online. Advertise it everywhere you can.

I hope you find this report useful and will use it wisely. As I said at the outset there are no secrets, all this information is sitting out there and waiting for anyone to find. By saving you the research time and packaging the excellent work of all the program and site owners into a neat little viral parcel you can now promote them far more effectively and spread those paying links farther and wider than ever before.

## Viral Clickbank Footprints

And now some credits.....and the rebranding details.....

This book was created with the excellent [eWriter Pro](#) and [ViralPDF](#) all you need to create rebrandable viral PDF products.

When you rebrand this report and give it away to others, it will be your links that you are propagating, leading to sign ups and sales for you.

Most of the hyperlinks will carry your ID's when you have run the rebrander but a few will remain those of the owner of the product. The next link, for example, demonstrates the effectiveness of the free cloaking software I have given away in this report and cannot be rebranded. If you find that after using OTO Goldmine you want to easily create unlimited one time offer pages but are not selling internet marketing related products, I recommend [One Time Offer Generator](#) .....

(Demo: If you click on that link and try to view the page source you will see just how well our free cloaker disguises affiliate links). I'm sure this will encourage you to protect your own links from both Clickbank and other networks with our free Cloaker Buzz software. (and remember, you can give that away to help build your own business too).

### **Important: How To Rebrand This Report:**

Rebranding rights are free. Join all of the programs through the link in this report - or as many as you want to join. If you are already a member of some just use your existing referral ID. All you need to do is click on the link below which will take you to the download page where you will need to enter your name and primary email address.

You will receive an email in which you will be asked to click a confirmation

## Viral Clickbank Footprints

link. After doing so you will receive a second email containing instructions on where to download the rebranding package.

It is very simple and full instructions are included in the downloaded files. They are in .zip format. You will need your referral ID's for all the programs contained in the report including your Clickbank affiliate username.

Once you have completed the rebranding process you can start giving away your own rebranded version of the report. (**not the brander or the "signed" PDF which does not contain your links**) Anyone who downloads your copy will get rebranding rights too. The rest should take care of itself.

When You Are Ready: [Click Here To Download Your Free Rebranding Rights Package](#)

Thank you for reading this report - I wish you every success with your online ventures and hope that this short document will prove both educational and profitable for you.
