

Halloween Camera Scavenger Hunt

Each year we have a big Halloween Party and one of our favorite events is the digital camera Halloween Scavenger Hunt.

We team people up in groups of 8 -10 people and send them out in their Halloween costumes with a list of things they must get photos of. These items are in different order so that the teams are not doing the same thing at the same time.

Each team dressed in Halloween costumes races around town to get photos at landmarks, with police officers, bouncers, next to funny signs, at a restaurant, etc... Once they get everything completed they return to the house with the photos. First team to return with everything completed (photos taken) is the winner.

As the teams return I download the photos and create a slide show and let it run on my computer throughout the evening. Everyone loves it and they all share and tell stories about their adventure.

If you want to make things more difficult, make the list clues as to where they need to go to take the photo rather than just saying go to this place to take a photo. Adapt for your crew and have fun.

Thanks - Jodee
