## **The Sun Signs**

## 1:1

The sun in Aries begets kingdom from knot,  
Chaos twisted over den of hellfire's light,  
Forming beam between two points, radial shot  
Through prism to triangle, shining from height.  
As ganglionic masses, stars obtain  
Fleshly spirit, casting off shells, shedding  
Putrefaction, tethered in twine with stain  
And Chaos spews anarchic seed, descending.  
Gaia's diameter spins, forming sphere  
For Uranus, expanding against limit,  
To drink milk of her breasts, becoming seer,  
Foreseeing foreordained fate, pyre ever lit.  
Self aware and doomed, he prepares for the end,  
Fathering eighteen children, Gaia's bane  
And he needs more, but weary of birth, bend  
Occurs in mother, calling for sons to reign.  
Cronus answers her summoning and takes  
A golden sickle, to sever father's lust,  
Ascending nascent from abyssal lakes,  
To neuter the dam, releasing blood to dust.  
Blood floods the earth, fertilizing the dirt,  
Generating offspring thick with matter,  
The Erinyes, Nymphs, and Giants that spurt  
From crevice volcanic, raising disaster.  
Uranus assumes appellation, wicked,  
Of Belial from Chaos as devoid  
And Gaia with Eros forms contending head  
Of Thomiel from Chaos as void.

## **1:2**

The sun in Taurus begets prophecy  
As hierophant predicts judgement day  
For them both, when third shall topple throne for fee  
To fourth, swallowing all creation's foray.  
Cronus casts Belial from expanse steep  
To the island, destined to collapse inward,  
And binds Thomiel over brothers deep,  
Pontus, Oceanus as Abyss under bird.  
Cronus marries Rhea, abyssal action,  
As sire swallows children, not allowing souls,  
And restricts genesis with refraction  
Of birth in stomach for baleful black holes.  
The vortexes sink to pockets, spiral,  
Draining space from universe, increate,  
For containment of time, tyrannical,  
Levy holding back prophecy of hate.  
Belial feels Thomiel as waves  
Of movement and contending head separates,  
For Cronus, reigning kingship as Moloch caves  
Of Erebus in Rhea, conceiving gates.  
Belial veils Rhea as Adramoloch,  
As Moloch fills the swelling with black holes,  
To feed Erebus as Ogiel and block  
Abyss and Nyx' Satariel set coals.

### **1:3**

The sun in Gemini begets child in womb  
Of Adramoloch, who fears for offspring,  
Destined by Moloch to abyssal doom,  
To ward off the fate of usurping king.  
Adramoloch, with help of Thomiel  
And Belial, wraps rocks in swaddling clothes,  
To delude Moloch with neutral as bale  
And cast tyrant to Tartarus with foes.  
By Amalthea, the child Zeus is raised,  
Surrounded by Curetes' song and dance,  
To conceal wailing of sky child appraised,  
As destined to conquer with lightning's lance.  
Outside the cave in a grove, Zeus encounters  
Amalthea's brother Pan, who bestows  
His shed horn of cornucopia, which stirs  
Gluttony of sister killed, as food rose.  
From skin of slain, Zeus obtains Aegis shield  
And Pan consumes the skinless corpse for might,  
As Baphometh, flute's delirium to wield  
On Curetes as Tzalalimiron's fight.  
Zeus, intoxicated by delirium  
And clanging, is left stupefied in cave,  
Until Moloch sends Python to fill numb  
With poison and crush godhead under stave.  
The threat of Python as Samael wakens  
The awareness of Zeus as Baal, lord  
Over beasts in depths and clangers in dens,  
To usurp lordship over father's cord.

**1:4**

The sun in Cancer begets sage advice  
Of Metis, as Astarte's cunning plan,  
For Baal, enthralled with her radiant price  
Of conquest for her beauty, as quest of man.  
Baal pours salt into Abyss made solid,  
As Moloch vomits children and faints fallen,  
For gods to battle Titans no longer hid  
And assail Olympus for reign as ten.  
The legions of Baal through Abyss roam,  
In search of Thomiel hindered by force  
Of Satariel's and Ogiel's dome,  
To ward off invaders from Moloch's source.  
Aries and Aphrodite, coupled force,  
Risen as Asmodeus and Ashteroth,  
Wield Gog Shekeloh to break bars and free course,  
For Golochab to burn the coals keeping oath.  
Ascending to Thomiel, they obtain  
Argo as Nimrod and sail Eridanus down  
To Tartarus, where spirits suffer bane  
As Shaarimereth with shades to frown.  
They free Cyclopes and Hecatoncheires  
As Golochab, to slaughter enemies,  
For Thanatos as Belphegor's dread fees,  
To lightning and thunderbolts of Tzelmoth trees.  
Eridanus and Acheron and Styx  
And Phlegethon and Cocytus as might  
Of Tzelmoth in Hades, abode of Nyx,  
As Lilith in Geihinom thrusting light.

## 1:5

The sun in Leo begets war on planes  
For Baal, assailing throne of Moloch,  
With flashes from Tzelmoth, as levy wanes,  
Beneath hatred of son for father's lock.  
Hades as Beelzebub, attacks unseen,  
With invisible helmet containing soul  
of wearer, with Geihinom's haze obscene,  
TO snatch the will of foes fallen in hole.  
Poseidon as Leviathan shakes the earth  
With trident, for tidal waves ,surging strong  
Against shores, avulsing matter to dearth,  
Enervating life with bursts felt as long.  
Together the three brothers battle king,  
To usurp godhead from tyrant above,  
Hydras as Necheshiron poisoning  
Foes, attempting abyssal drains, killing love.  
Baal thrusts lightning and thunderbolts, fierce,  
At Necheshiron, to blind and stun with shock,  
As Beelzebub warps with helmet, to pierce  
And Leviathan shakes the servants for lock.  
Enslaved by usurpers, Necheshiron turns  
On Moloch, who falls to Shaarimereth,  
To suffer trident of Tzelmoth, which burns  
The fallen monarch with lightning cheating death.

**1:6**

The sun in Virgo begets hymen's loss  
For Astarte, impregnated by seed  
Of Baal, who hears warnings about cross,  
So he swallows her to prevent baleful deed.  
Baal's head quakes with pain of pulsating blood  
And Hephaestus as Azazel with axe,  
Cuts open head to free Athena with flood  
As Allotu, bearing shield to freeze attacks.  
From Thomiel springs Hermes as Nergal,  
To join Allotu in marriage frightful,  
For souls seized beneath Geihinom's occult wall,  
To suffer imprisonment's torment, painful.  
Thomiel disdains the couple serving gods,  
Instead of Titans and wants hellfire anew,  
For hierarchies polluted with rods  
Of lightning, from which Baal's kingship grew.  
From blood of earth, Giants as Thamuz keep  
Their pact with Thomiel, to avenge defeat  
And gather weaponry, to assail steep  
Olympus in tumult removing seat.

**1:7**

The sun in Libra begets offspring to judge  
The subjects of Baal's empire with lies,  
As Bershachet and Abaddon leave smudge  
On souls of innocents, condemned to cries.  
The Horae as Necheshtiron pretend  
Automatons are disciplined egos  
And superior force, usurping truth's end,  
Is tainted peace, as imperfect world grows.  
Over Necheshtiron, Astraea red  
As Pyro wields warps to bend sanity,  
Feigning justice and virtue, raping head  
Of victims fallen under bigotry.  
Pyro and Necheshtiron, offspring of Themis  
As Cresil, wield threads of Moirae, consanguine,  
As Adimiron, to impel with hiss  
Of impurities, to fall beneath sin.  
Hera as Shabriri plots to replace  
Cresil and reign with Baal over world  
Of eternal darkness, behind veiled place,  
To perpetuate kingdom's thunder hurled.

**1:8**

The sun in Scorpio begets divorce,  
Between Baal and Cresil over her lack  
Of purity, as Baal enjoys source  
Of injustice, from Pyro inverting stack.  
Shabriri bewitches Baal with height  
Of orgasmic ecstasy and they marry,  
In garden of Hesperides with light  
Of sun, reflected from Abaddon's fee.  
Desire of Azazel for Ashteroth,  
Is unfulfilled, until Shabriri commands  
Her to marry watcher, invoking oath  
From Beelzebub's bridge, crossing Abyss bands.  
Ashteroth seeks Asmodeus' embrace  
And they meet in Titahiyon, seeking  
Oblivion as Azazel spies from Abyss's face,  
Burning with rage of unrequited love's sting.  
Allotu visits forge of Azazel,  
Seeking new weapons and the blacksmith wants  
The virgin's hymen, protected from bale  
So on her leg he ejaculates haunts.  
From watcher's sperm springs Erichthonius  
As Duke Mizah, draining young of will,  
To live under beetle juice and cat's pus,  
Luring to Abyss Babes of Abyss as swill.

**1:9**

The sun in Sagittarius begets  
Prometheus rising as Lucifer,  
Permuting Ain Soph Aur as nine outlets  
Outward from Abyss for infinite star.  
Foreseeing foreordained fate of ruin  
Under new usurper's vengeful cup of wrath,  
Vengeful Lucifer seeks father to win  
Revenge in torture, during aftermath.  
Embraced with Astarte, Lucifer begets  
The ultimate profanation mankind,  
For genius to descend beneath the nets  
Of satyrs with nymphs as Baairiron's mind.  
He foresees foreordained fate of damnation  
For Gamaliel and freedom for the stained,  
Of empire's subjugated generation,  
Beneath Pyro and Nechshthiron pained.  
From forge of Azazel, perpetual,  
Lucifer obtains inferno's flames,  
To complete quarters, west and south dual,  
For mankind, ascending and speaking gods' names.

**1:10**

The sun in Capricorn begets outrage  
Of Baal, over theft of fire for lost  
Mankind, to rise in stature, bringing new age  
To world below, where innocence pays cost.  
To countermand the gift of fire for mankind,  
Azazel and Allotu construct the baneful  
Pandora as Vetis, to corrupt the mind  
With deceitful treachery, base manful.  
Among mankind, predator Vetis opens  
A box, releasing all types of misfortune  
Onto earth, as hope sits entrapped in dens,  
At bottom of box, causing apprehension.  
For thief, Baal commands imprisonment  
In Shaarimereth, under Keres  
As Arab Zerek, tearing vitals sent  
Regeneration, to prolong duress.  
Baal condemns prophecy of hellish end,  
As lies of enemies, hoping to cast  
Him down, to dwell with Moloch, suffering bend  
Of eternal damnation, born as last.

**1:11**

The sun in Aquarius begets pact  
Of Baal against usurpation's sting,  
With Herakles as Baalberith for tract  
Of eternal kingship over suffering.  
Nergal brings Baalberith as a baby  
To Shabriri, asleep, and lets him suckle  
At her breast for immortality's sea  
And, awakening, she shoves, leaving trickle.  
Shabriri, enraged at molestation,  
Vows revenge on Baalberith, as drops  
Of milk spill to space, forming starry nation  
In Abyss, for devils harvesting crops.  
While Baalberith lays sleeping in crib,  
Shabriri sends Necheshiron to enfold  
The baby in convolutions, squeezing rib  
Cage, but Baalberith crushes snakes bold.  
A teacher of reading and music disciplines  
Baalberith with a whip for truancy,  
So son of Baal strangles him and wins  
Amnesty, with self defense as his plea.

**1:12**

The sun in Pisces begets defense sought,  
At behest of Baal with magic plant,  
Eos as Balan, Helios as Saraph, hot,  
And Selene as Orias reserve for slant.  
Already having eaten magic plant,  
Thamuz equipped with arsenal attack  
Fortified Olympus, seeking to supplant  
Lord, with boulders and flaming trees from stack.  
Allotu reigns force field for father's height,  
As Baal and daughter hurl thunderbolts  
At Thamuz, warding off invaders' fight  
From Olympus, as legion suffers jolts.  
Above Geihinom Baalberith fires  
Poisonous missiles over convulsive  
Hordes, rendered feeble with lit veinal pyres,  
And Thamuz routed regroup decisive.  
Thamuz surround Baalberith to trap  
With swarm and seize into bondage as slave,  
But Shabriri lures with sodomy's lap  
And Thamuz, seeking colon, go blind with wave.  
Baal hurls thunderbolts at Thamuz, blind,  
And Baalberith tosses legion down  
To Shaarimereth, suffering mind  
Split in two with Tzelmoth's rivers to drown.

## **The Pluto Signs**

**2:1**

Pluto in Aries raises anger, quelled,  
Of Thomiel, dissapointed with defeat  
Of Thamuz in torture, under kingdom held  
By tyrannical Baal, forcing effete.  
Shabriri complains to Baal about son,  
Baalberith's illegitimate claim  
To nobility, descended from one,  
But Baal respects pact to preserve his name.  
Thomiel swells in Shabriri, hateful  
Of Baal's decision, and she descends  
To Shaarimereth and frees baneful  
Moloch to Abyss, seeking destructive ends.  
Moloch coats eggs of Necheshiron in sperm  
And they hatch as flaming hoods of Abyss,  
Joining together as Typhon seeking term  
Of hellfire over creation, forcing hiss.

## **2:2**

Pluto in Taurus raises baneful pact  
Of Thomiel, sending Typhon to shelter  
Of temple, dedicated to lewd act  
Of Cresil, using Samael as panderer.  
Samael teaches Typhon occultism  
Of astral plane, showing how to establish  
Windows through etherial for schism  
In physical, taking replicas to dish.  
From astral, sadistic Samael forces  
Replicas of people in townships to leave  
Their lives behind and damnation divorces,  
With poison in Geihinom's stinging sleeve.  
Typhon as Satan takes from people's souls,  
The replicas into townships aflame  
And burns regenerated flesh in holes  
Of screeching pain, with Shaol as their name.

**2:3**

Pluto in Gemini raises twins in womb  
Of Leto, impregnated by Baal,  
And Shabriri convinces cultures to doom  
Leto as Alagas, outcast seeking hall.  
Journeying Alagas finds no place to rest,  
Until she finds island Delos as Nod, kind,  
Where Iris as Shaitan receives her, possessed  
By need to raise offspring, with duty in mind.  
On Nod, Alagas bears powerful twins,  
Apollo and Artemis, with help of Shaitan,  
And Baal names son Kobal, musician who wins  
Mitre and lyre, and daughter Kasdeya, his pawn.  
Kasdeya vows to maintain chaste and look  
In forests for wild beasts to domesticate  
And Kobal, in chariot with bow he took,  
Journeys to temple of Cresil for fate.

**2:4**

Pluto in Cancer raises wrath of Kobal,  
Against Samael seeking to poison veins,  
And Kobal shoots an arrow, causing fall  
Of foe to Tzelmoth, under shivering pains.  
The populace praises Kobal for deed  
Of valor and Muses as Shichiriron  
Sing hecatombs in honor of act, decreed  
Beneficial to Baal, reigning throne.  
In hatred for damnation of mentor,  
Satan attacks Kobal with bursts of flame,  
Burning hero in inferno, sending core  
To Tzelmoth, suffering poisonous names.  
Baal commands release of Kobal, freed  
From tortures, returning to temple shrine,  
And dubs Satan a criminal in need  
Of punishment, to learn respect for divine.

**2:5**

Pluto in Leo raises keeping of pact  
With Baalberith, who seeks adversary,  
And Satan raises walls of flame to enact  
Burning prison for screaming enemy.  
Through Abyss Satan ascends, passing beyond  
Golochab and Gog Shekeloh, burning  
Defenders fleeing in fear of hellish bond,  
Leaving pathways open for aspiring king.  
From Olympus, Baal and Allotu  
Hurl thunderbolts at attacker,  
But Satan immolates their peak as two,  
Torn asunder and falling to disaster.  
With sickle Satan amputates tendons  
And muscles of Baal, fallen from dome,  
To suffer flaming nexus born from suns  
For Delphyne as Debam to guard earthly home.

**2:6**

Pluto in Virgo raises Samael, freed,  
From Tzelmoth, seeking victims and journey  
To temple, poisoning Kobal in need  
Of usurping hierophantic fee.  
Summoning forth flames from Thomiel, transformed  
Into inferno, Satan begins the task  
Of undoing creation, ever deformed,  
From origins of Belial's flask.  
Satan commands Nergal to bring his sister  
Allotu and Baphometh is sent to get  
Baal, to cast them into flaming whirler,  
To disintegrate in oblivion's net.  
Nergal and Baphometh both liberate  
Baal and Allotu from abyssal jaws  
And eluding Debam, passing through gate  
Nergal obtains tendons and muscles for laws.

**2:7**

Pluto in Libra raises plan of Baal,  
To lure Satan, in his need to destroy,  
And Adimiron advise Satan with call  
To ingest plant, declared magical as ploy.  
Poisoned by plant, Satan becomes sick and seeks  
Vengeance on Adimiron, luring to trap  
Where Baal and his brothers reign from peaks  
Stunning with thunder and earthquakes to entrap.  
Satan is overwhelmed and earth opens  
Beneath his feet, sending him to a hell hole  
Full of lava, thrusting upward to dens  
Of Etna as Inbubu quelling Shaol.  
Over time Inbubu becomes an inactive  
Volcano, where pomegranate trees take root,  
And many taste the seeds for blood to live  
In veins, regenerating spirit from soot.

## 2:8

Pluto in Scorpio raises sacred rite  
Of Kobal, who dedicates tripod at shrine,  
In temple of Cresil, to give prophets sight  
For auguries, to protect Baal divine.  
With water from sacred spring, Kobal washes  
Himself clean of stain from Samael's poison  
And devotees celebrate conquest with marches  
To the temple, as incense fills horizon.  
While visiting Kasdeya, Kobal sees  
A follower of his sister and desires  
Daphne as a lover, seeking decrees  
That she give him her hymen, as he conspires.  
Forcing Leucippus as Alooph Tzupho  
To disguise himself as a female, he sends  
His slave to company of sister to show  
The slave as follower, while Daphne attends.  
At a lake, the followers undress to bathe,  
But Tzupho refuses and virgins force  
Him to undress and, with insults, they scathe  
The slave, whom Kobal tortures hiding the source.  
For punishing Tzupho, Kobal demands  
Virginity of Daphne and she rejects  
Him, so he settles for brute force of hands  
And enslaves Daphne as Semyaza under hex.  
Kasdeya disowns Semyaza as harlot  
And Kobal uses her as consort for sex,  
Until he tires of her and pains beset  
Her vagina, raped with wood to invert hex.

**2:9**

Pluto in Sagittarius raises plan  
Of Thomiel, influencing others,  
As Shabriri and Leviathan, with clan  
Of Kobal resent Baal's use of powers.  
With help of Allotu, they seek to entrap  
Baal in Abyss, and reign in his stead,  
But Satariel and Ogiel see trap  
And prevent them from usurping godhead.  
As punishment Leviathan and Kobal  
Are forced to erect walls of Toy in Troas,  
Where opposing forces will collide and fall,  
With clash of warring legions that amass.  
King Admetus as Melech Eilah denies  
Payment for services, so they refuse  
To build further, and Baal forces cries,  
As their ears are shorn for sworn oaths they lose.  
Having finished walls, the known reprobates  
Seek Asclepius as Uphir, to heal  
Their wounds, and Kobal returns to temple gates,  
Sending plague to Troy for vengeance as seal.

**2:10**

Pluto in Capricorn raises desire  
Of Kobal for Cassandra, as fresh conquest,  
To defile her before she weds and conspire  
to give gift of prophecy and complete quest.  
After receiving gift of prophecy,  
Cassandra as Mantiens refuses  
To submit and seeks help removing fee,  
Which Kobal demands for fate he chooses.  
Upset with failure, Kobal transforms gift  
Of prophecy into curse of foreknowledge,  
So people of Troy ignore warnings as rift,  
Draining current happiness to predestined ledge.

**2:11**

Pluto in Aquarius raises argument,  
Between Allotu and Leviathan, over  
Sovereignty of Attica, distant,  
As Dinhavah, the potential invader.  
Leviathan throws the trident to ground  
And causes earthquake, opening fissure  
For spring, sprouting water from upraised mound,  
And he demands lordship, to stave disaster.  
On mound of newly found spring, Allotu plants  
Olive tree to drink the water, emerging,  
And she declares it as her place of giants,  
Who shall reduce Troy beneath might of their king.  
To settle dispute, Baal calls tribunal,  
To decide the presider over state  
Of Dinhavah and Leviathan, losing quarrel,  
Floods Eleusis as Edom to satiate.

**2:12**

Pluto in Pisces raises pupil trained  
In art of weaving and embroidery,  
Named Arachne, devotee ever stained,  
By servitude to Allotu's painful fee.  
Arachne's overseer commands her to invoke  
The name of Allotu and proclaim godhead  
And Arachne obeys, for demon to evoke  
Punishment, for disrespecting heaven wed.  
Under commands of Allotu, the victim  
Arachne as Scharak entwined, enters  
Chamber where spiders swarm her body at whim,  
Hearing of webs, weaving, and her new sisters.

## **The Neptune Signs**

**3:1**

Neptune in Aries washes fertile womb  
Of Danae as Bialot, with semen sent  
From father Acrisius, for Zuvulon's room  
Underground, to house daughter and fetus bent.  
Through a crack in roof of bronze room, Baal  
Showers mother with golden rays of light,  
And she bears Perseus, who shall heed the call  
As Alooph Allah, reigning curses with might.  
In disgust Zuvulon has mother and son sealed  
In casket, thrown out to sea for fate of lost,  
But they are rescued, brought to shore, and healed  
By Dictys as Alooph Asheir, seeking cost.

### **3:2**

Neptune in Taurus washes body clean  
For Allah, raised as warrior in court  
Of Polydectes as Melech Isaac, to glean  
His youth in servitude, protecting fort.  
Isaac invites Allah to regal banquet  
And commands him to retrieve head of Gorgon  
As Succotbenoth, for powers of net  
From baleful gaze, turning life to stone with dawn.  
From Nergal and Allotu, Allah obtains  
Advice, to seek Graeae as Tartac in cave  
And he travels to the far wasteland and attains  
The sight of their abode, bypassing stave.  
Sneaking into cave, Allah steals tooth and eye  
Of Tartac, enslaving them beneath need  
To see and eat, so they reveal with a cry  
The location of magic items decreed.

### 3:3

Neptune in Gemini washes spirit  
Of Allah, who obtains magical bag,  
From Nymphs as Gamaliel, in which to fit  
The head of Succotbenoth, acidic hag.  
From Beelzebub, Allah obtains helmet  
Of invisibility, to elude  
And Nergal bestows sickle of Moloch, set  
To reap the head from which acids exude.  
Allah finds lair of Succotbenoth, high  
Among crags, and with help of reflection  
From shield, held by Allotu as ally,  
He decapitates her sending forth sun.  
From the neck of Succotbenoth arise  
Pegasus as Paimon, flying with wings spread,  
And Chrysaor as Torfora, holding prize  
Of golden sword to strike enemies dead.  
The head Allotu puts in magical bag,  
Catching acidic blood before it grows  
Scorpions from ground, as sisters from crag  
Seek revenge, but with helmet he eludes foes.

**3:4**

Neptune in Cancer washes honors paid  
By mortals to deities, vying to obtain  
Worship from cities, as state gods always made  
To stand above acolytes' heads, they attain.  
In assemblies Leviathan is bypassed,  
Without a city of devotees to lead,  
And angered he blights the land, drying fast  
The rivers, causing famine, withering seed.  
Upset with the devastation, Shabriri  
Enlists help of Baal, who forces end  
Of blight by having Atlantes raised from sea,  
With help of eruptions from Leviathan's bend.

**3:5**

Neptune in Leo washes curses cast  
By Baal, in hatred for trickery  
Of Lycaon as Melech Buor, who passed  
Across a line established, risking fee.  
Doubting divinity of incarnation  
Of Baal, as mortal, travelling roads,  
He orders slaves to place abomination  
Of children's flesh in food, to construct goads.  
Outraged with sacrilege, Baal forces  
Slaves to engage in cannibalism  
And strikes them with levin, which divorces  
Their souls under goads, suffering schism.  
The slaves are banished by Buor to lower ground  
And Leviathan strikes with trident, causing  
Tidal waves that flood area beneath mound,  
So slaves are overwhelmed, eternally drowning.

**3:6**

Neptune in Virgo washes thirst of none  
In Argolid as Mitzraiyim, under drought,  
And Danaides as Dagdagiron suffer sun,  
Travelling with father, parched and seeking way out.  
From their misery, Leviathan takes  
Replicas of daughters into Geihinom  
And he demands their hymens, before he slakes  
The thirst of their original selves to roam.  
Dagdagiron agree to infernal terms  
And Leviathan uses them as toys,  
Discarding them to suffer thirst that squirms,  
Obtaining fate allayed for master's joys.

**3:7**

Neptune in Libra washes paternal  
Concern of Aleus as Dan away  
And daughter Auge as Mermo, maternal,  
Is disowned, pregnant with Baalberith's sway.  
Ordered by Dan to deliver Mermo  
To death at sea, Nauplius as Ezekil  
Allows her to give birth at sea, and know  
The plank to fall from, drowning her broken seal.  
Her son Telephus as Levi desires  
To find his mother, a mystery shrouded,  
And consults an oracle, raising spires,  
Forcing him to fall from plank and join the dead.

**3:8**

Neptune in Scorpio washes spirits  
Of Scylla and Echidna, offered gift  
Of immortality from Glaucus, who sits  
On throne as Ariton, seeking shapes to shift.  
On condition they tell others of their change,  
Ariton bestows immortality  
And people, hateful, judging them strange,  
Force squid on Scylla, eel on Echidna as fee.  
Diseased Echidna as Laboneton  
And Scylla as Bialot seek escape  
And request protections of Ariton,  
Who exploits them as monsters, guarding cape.

### 3:9

Neptune in Sagittarius washes feet  
Of Andromeda as Nibras, forced to invoke,  
The sorrowful weeping Nereids, sinking fleet  
As Gog Shekeloh, breaking hulls to efface.  
Insulted by Nibras, Gog Shekeloh send  
Kraken as Sonneillon to victimize  
The kingdom's citizens, who wish to end  
The attack, by giving Sonneillon a prize.  
Nibras is bound to a rock as captive  
Awaiting Sonneillon, when Allah sees  
Her figure and desires that Nibras give  
Him pleasure of intercourse, exchanging fees.

To embrace of Allah, who enjoys the sex  
And abandons her to Sonneillon, who wields

Until the new arrivals come and submit,  
And leaving, they feel scales of fin as dells,  
Rising from vaginal canal's quaking fit.  
Accused of regretting peaceful submission,  
Instead of plotting murder on their wedding night,  
Dagdagiron suffer subjugation  
In Geihinom, refilling leaking cups in fright.

Allah to regal chambers, announcing pact  
As trinity over victims undone,  
By might of Allah's will over spirit's tract.

Control over victims, turned to stone behind net.

In laver, her blood mixed with water, staining stone.  
As she hears denizens of Shaarimereth,  
Darascon is driven insane with grief,  
As cacophony of cymbals and drums  
Resound in her head, throbbing with no relief,

Stealing the girdle and strangling with flood  
To head of Gadril, suffocating to the sheen.

With a virgin, and she seeks her philter and earns  
His hatred, now considering himself above.  
Baalberith commands Plegit to smear  
The philter on her own skin and she obeys,  
Suffering burns in agony and fear,  
As she disintegrates, groaning in daze.

## **6:12**

Jupiter in Pisces casts resentful  
Command of Kunaz for Baalberith to clean  
The stables of Augias, which are always full  
Of dung from horses, perpetually unclean.  
Baalberith asks permission of Augias  
As Melech Korach, who welcomes the aid  
In exchange for an estate, expecting loss  
Of Baalberith to endless task, overweighed.  
Breaking down a portion of the enclosing walls,  
Baalberith makes an opening in stable  
And he diverts a river, so that water falls,  
Pushing out the dung away from people.  
After the task is finished, Korach refuses  
To reward Baalberith, declaring  
The stables to be ruined, so he chooses  
To extract his fee from Korach's suffering.  
The river is closed off and the opening  
Is sealed, allowing horses to return,  
As Baalberith uses water, cleansing  
Anus of Korach, fearful and taciturn.  
After the canal is cleansed as the stables were,  
Baalberith sodomizes Korach, enslaved,  
And forces him to eat dung from stables as cur  
In Abaddon, where he suffers fate of depraved.  
While Korach suffers in Abaddon, trapped,  
Baalberith proclaims Phyleus to be king,  
As Melech Alvah, presiding over sapped  
And barren slave, he cleanses for sodomizing.

## **The Mars Signs**

**7:1**

Mars in Aries destroys aspirations  
Of Baal and Leviathan for tryst,  
With eldest of Gog Shekeloh, as predictions  
Of Lucifer cover desire with mist.  
Destined to be more powerful than his father,  
Her son must be begotten from a mortal man,  
So Mahazael tells Peleus of matter  
As Alooph Eliphaz, who seeks to breed a clan.  
Attempting to escape, the eldest changes  
Her form, but Eliphaz maintains his hold,  
Until she is rendered humanoid and raises  
Her hands in submission to her master, bold.  
Each time Eliphaz begets a child with her,  
She casts the new born into flames to die,  
But Eliphaz rescues Achilles from torture,  
As Muhiruth, with burned heel and lips that cry.

## 7:2

Mars in Taurus destroys hopes of eldest  
Gog Shekeloh, seeking death for her son,  
Brought to Mahazael, exhuming dead to wrest  
Marrow from Golochab, to heal the burned one.  
Fed with meat, containing minute amounts  
Of dung and larvae, Muhiruth grows, restrained  
from freedom of thought, under mentor, who counts  
His mistakes and tortures him, so he's better trained.  
After an oracle predicts the need  
Of Muhiruth as ghost, to conquer city  
Of Batzrah, Eliphaz puts his son decreed  
To be a girl in a harem, wanting him free.  
Odysseus as Alooph Amaleik hears  
The oracle about conquering Batzrah  
And finds Muhiruth in harem, who fears  
Discovery, hiding among girls from the law.  
When Amaleik discovers him, he blows  
A trumpet, signalling the find to the system,  
And Muhiruth is tortured with pincers and knows  
The fistula, as his captors exploit harem.

### 7:3

Mars in Gemini destroys matrimony  
Of Flaxon, when Agamemnon as Bela  
Kills her husband and takes her under levy,  
As consort to breed sons for his monstrous maw.  
From a temple of Kasdeya, Gatam abducts  
Helen as Agibol to keep as his slave  
And, in confinement, she is raped and eructs  
Iphigenia as Remoron, for the grave.  
Ganglion learns location of Agibol,  
While Gatam is away in Geihinom, lost,  
And they rescue her from imprisonment in hole  
For Yutheith, who barter for a consort as cost.  
Menelaus as Baalchanan accepts  
The offer of Yutheith and takes Agibol  
As his consort, demanding she obey precepts  
To remain indoors, under her master's knoll.  
When Paris as Aholivamah is captured,  
He is interrogated by torturers,  
Who extract information, which is conferred  
To Bela for invasion of Batzrah's borders.

**7:4**

Mars in Cancer destroys the innocence  
Of Remoron, deemed the reason for delay  
Of fleet, unable to deliver the dense  
Formations, due to lack of wind, so they stay.  
Bela explains Kasdeya is displeased  
With Remoron, as illegitimate whore,  
and he devirginizes her, until pleased,  
Then gives her to the mob, who make her sore.  
After Remoron has been sodomized,  
She is placed on altar, where Bela peels  
Off her skin, leaving her body traumatized,  
To die of shock and pain, as legions set their keels.

## 7:5

Of Troas as Bershacheth, where armies  
Of Bela land and gather force to piece  
Together invasion, seeking Batzrah to seize.  
From surrounding countryside, Bela seizes  
Chryseis as Arolen to exploit as his slave,  
But a plague besets his army with disease,  
So he tortures her to death, hoping to save.  
After Bela takes another foreigner,  
Briseis as Aherom, from his underling,  
Muhiruth refuses to fight because of her  
And he is raped in a cell for refusing.  
When men of Batzrah launch a surprise attack,  
Decimating front line, Bela demands  
Muhiruth lead a party forth to back  
The legions' front, exposed, to clear reprimands.  
While Bela enjoys Aherom at the fort,  
Muhiruth clears his name with a counterattack,  
Filling Scamander as Derech, to support  
Poisonous blood, overflowing to build stack.

**7:6**

Mars in Virgo destroys the bitter hopes  
Of Mantiens, foreseeing the danger,  
of taking dried meat left behind for ropes,  
To drag the people of Batzrah down under.  
After they retrieve the meat, Mantiens hides  
In temple of Allotu, hoping for safety,  
But Allotu forsakes her, as Muhiruth rides  
Through heads of enslaved, taken under levy.  
Mantiens is given to Bela as his slave  
And taken back to Dinhavah to serve,  
Where she conceives children, held under trave,  
No longer allowed to prophesy with verve.  
When Mantiens becomes barren, she is stowed  
In a box with grubs inside her body,  
That grow into bugs, crawling through her flesh, towed  
Down with Arab Tzerek, speaking of prophets' fee.

By their father to wander outland, seeking  
Court of Kunaz, who accepts them as they wished.  
When elder, Jacob, inherits the throne,  
He invites Esau to a banquet hosted  
On his behalf, where heads of three victims are shown,  
After Esau has their flesh ingested.  
Deemed ungrateful by his host, Esau is thrown  
Into a dungeon, to be tortured underground,  
For the remainder of his life, which is sewn  
With accusation of wanting Jacob's mound.

**7:8**

Mars in Scorpio destroys the body  
Of Muhiruth, fullfilling prophecy,  
For his death in Bershacheth at gory  
Battlefield, where soldiers are stripped of glory.  
Filling Derech with poisonous blood to swelling,  
Muhiruth causes its banks to overflow  
And Batzrah, besieged by contingent's ring,  
Suffers famine, maintaining walls against foe.  
At gates of Batzrah, Muhiruth confronts  
Hector as Alooph Timna, striking him down,  
And tying him to chariot for stunts  
Upon his body, dragged to enhance renown.  
As Muhiruth drags Timna around wall  
Of Batzrah, an arrow pierces his heel,  
Sending him to oblivion, awaiting call  
Of Dinhavah, to sail with lightning's keel.

**7:9**

Mars in Sagittarius destroys innocents,  
Used by Bela for astral cross over,  
To outrace other competing continents  
And establish creations with which to conquer.  
After Flaxon becomes barren, she is cast  
Into bestiality, to be harvested  
For a venereal disease amassed,  
With shells used in aphrodisiacs wasted.  
When Bela returns home to Dinhavah,  
He appoints his son Orestes as Pinon,  
To be his vassal over conquered Batzrah,  
While he is splintered from colony to atone.  
With his daughter Electra as Darokin,  
Bela has sexual intercourse for fun,  
Until he tires of her and deems her unclean,  
Giving her to sodomites, who reign aversion.  
Darokin is sodomized with a ball  
In her mouth, washing her spirit beneath  
Arab Tzerek, controlling her mouth to call  
From a hole, where she sleeps with aching sheath.

**7:10**

Mars in Capricorn destroys the body  
Of Plegit, which Philoctetes as Abram burns  
On pyre and Baalberith gives booty  
Of poisoned vial and arrows, when he returns.  
When Bela commands Abram to assist  
In the invasion of Baztrah, he refuses,  
Preferring to settle wilderness and resist  
The call to arms forsaking what he chooses.  
Instead Abram is taken to an island,  
Where he is raped and left to starve to death,  
While Bela uses the vial to land  
Poison in water supply, stifling breath.

**7:11**

Mars in Aquarius destroys the household  
Of Amaleik, blown off course after conquest  
Of Batzrah, suspecting himself a cuckold,  
Anchoring at alien shores to rest.  
Beside spring of Lethe as Ain, lotus fruit  
grows as Ain Soph whorls, which the people eat,  
Draining their minds into oblivion's root,  
Until Amaleik enslaves them under seat.  
When Amaleik returns home to his wife,  
Penelope as Supipas, he accuses  
Her of adultery and casts her to strife  
Of intercourse with a pig and diseases.

Of Batzrah, after Bela and his legions leave  
Behind dried meat, as they set sails and flee  
To nearby coastline, waiting to deceive.  
The famished population recover meat  
And distribute it among Batzrah to ward  
Off starvation, ignorant and effete,  
Under fleshly straw, grown between ears for cord.  
During sleep the ghost of Muhiruth rides  
Upward from their heels to their lips, forcing  
The pact of Allah, opening their mouths from sides,  
Weighed down under tumors, their will divorcing.  
Bela and his army return victorious,  
Entering Batzrah and enslaving people,  
Including royal family under truss  
Of Dinhavah, invading their castle.

The moon in Cancer reflects mother's concern  
For Nahema, abducted and enslaved,  
By Beelzebub, who keeps her taciturn  
In Geihinom, where he obtains what he craved.  
Out of grief, Naaman searches the earth  
Nine days and nine nights for Nahema lost,  
Rendering the soil infertile and causing dearth  
To populations, forced to pay a cost.  
When Baal hears of Naaman's neglect  
For her duties, he demands that she obey,  
And she is starved and forced to genuflect,  
Forgetting her daughter's plight, robbed of day.

**10:5**

The moon in Leo reflects the desire  
Of Gatam to seize Nahema, entrapped,  
As he travels to Geihinom, crossing mire  
And bypassing Naburus, held back and sapped.  
Once inside Geihinom, Gatam is received  
By Beelzebub as an invited guest  
At a banquet, where he learns he was deceived,  
Stuck in a chair, rooted to Abyss with no rest.  
Hecate as Satanael befriends  
Nahema and, with tendril, she enervates  
Forces of Leviathan from Gatam in bends,  
Raising a flood from Abyss out of gates.  
The flood overruns much of Geihinom covered  
As Beelzebub and Nahema flee  
The palace, crumbling beneath Abyss, stirred,  
And Beelzebub relocates, suffering fee.

**10:6**

The moon in Virgo reflects lechery  
Planned by Satanael, who gives a potion,  
Containing Ain Soph, to Nahema for fee  
Taken from Beelzebub beneath motion.  
Nahema mixes the potion into meal  
Of Beelzebub, who consumes it and becomes  
Lackadaisical, fallen beneath the real,  
Unable to compose himself, so he succumbs.  
Over Beelzebub, Satanael evokes  
Gamaliel, which encircle his vision,  
And the foolish boor, desirous, invokes  
Satyriasis with rape as his obsession.

**10:7**

The moon in Libra reflects the escape  
Of Nahema from Beelzebub's grasp,  
Journeying to Tzelmoth to avenge rape,  
By obtaining poisons, beyond venom of asp.  
Before bathing in Tzelmoth's stinging rays,  
Nahema swears oath to Belial, fallen,  
To obtain vengeance for creation of days,  
Under tyranny of Baal with caustic den.  
Bathing in Tzelmoth, she is electrified  
with force of Baal in her veins, overlooked,  
And capable of accomplishing deicide,  
Gaining attributes from impurities hooked.

**10:8**

The moon in Scorpio reflects hatred  
Of Azazel, made lame by Baal out of spite,  
And seeking to aid Nahema, who is led  
To his lair in quest to usurp Olympus' might.  
As a boon for Nahema, Azazel gives  
A metal rod formed from Chaos, increate,  
And invoking Chaos, which forever lives,  
She rapes herself with Chaos rod to satiate.  
Within her vagina, Nahema grows  
Chaos blades to enervate anyone,  
Who engages in intercourse with her, so foes  
Are sapped of their power, with their will undone.

**10:9**

The moon in Sagittarius reflects spell  
Of Satanael on Naburus, made  
Excited, gyrating hips with hormones that swell,  
Seeking outlet anywhere convenient laid.  
With Naburus in heat, Nahema enters  
His domain, presenting her infested den,  
And Naburus jumps onto her hindquarters,  
Raping her viciously, adding to the fen.  
Enervated by Chaos blades, Naburus sinks  
Into slumber, bleeding profusely from gashes,  
As Nahema's canal, infested, drinks  
The strength to compress and entrap penises.

**10:10**

The moon in Capricorn reflects trickery  
Of Satanael over Azrael led  
By a spell, to be mesmerized with beauty  
Of Nahema, so he seeks libido fed.  
Engaging in sexual intercourse,  
Azrael is drained and relinquishes post  
To Nahema, stealing boat to sail course  
Of Tzelmoth, leaving Geihinom's damnable coast.  
With aid of Naaman, Satanael infects  
Food of Baal with Ain Soph potion, ingested,  
So he falls under spell, succumbing to hex  
Of Nahema, forcing incest, while veiling dread.  
By compression of her infested bite,  
Baal's penis is trapped and drained of might,  
As he becomes outcast from Olympus' height,  
Obeying adversary's commands to lose fight.

**10:11**

The moon in Aquarius reflects rape  
Of Baal, under entrapment of harlot,  
Forcing erections for infections agape,  
As Chaos blades drain spirit as scarlet.  
Usurped under predators, Baal journeys  
To Shaarimereth, unbinding foe,  
Lucifer, who rises by degrees,  
Seeking to fullfill prophecy and grow.  
Bursting forth, Lucifer releases  
Satan from Inbubu, whose plans have succeeded,  
Taking and regenerating pieces  
Of his heart, for pomegranates over slaves led.  
Baalberith, realizing his father's loss,  
Comes to fullfill pact and free him from fetters,  
But Satan wields girdle as necklace to toss  
Him downward, choking under his betters.

**10:12**

The moon in Pisces reflects Satan's wish  
For Olympus as Shaol against pits  
Of Geihinom, draining Baal into dish  
Of lava, burning legions, where Moloch sits.  
Belial blames Chaos, while raping Baal  
And Moloch, dwarfed by flames, screaming, no release  
For wickedness, staring at endless hall,  
Ever hoping rape can hurt enough to cease.  
Lucifer through Beelzebub shines  
Eternal in aberrations of maggots,  
Sewn with Shaarimereth and Tzelmoth lines,  
Sinking Geihinom to Titahiyon lit.  
Ashteroth with Tzelmoth presides over stench  
Of Abaddon's torturous poison fed,  
As Asmodeus rules slain, fallen in trench,  
To rot and gather flies as Beelzebub's dead.  
Yachin flows into Boaz as spiral shell,  
Forming vortex of matter over void  
Of whirling motions into chaotic hell,  
Entrapped as substance, damned, draining devoid.  
In the end Chaos blades, Nahema's body,  
Drain polluted blood into ruin, result  
Of oppression's doom, cup of wrath, eddy,  
With satiety's wealth, forever occult.
